

# Traffic Signal Design Manual

ORIGINATOR Director, Bureau of Highway Operations	
CHAPTER -	Table of Contents
SECTION -	
SUBJECT -	

Procedure Number

## **CHAPTER 1 – INTRODUCTION**

SECTION 1 – PURPOSE OF MANUAL	
Subject 1 – General	1-1-1
SECTION 2 – ALTERNATIVES TO SIGNALS	
Subject 1 – Alternative Intersection Treatments	1-2-1
SECTION 3 – SIGNAL DEVELOPMENT PROCESS	
Subject 1 – Procedure	1-3-1

## **CHAPTER 2 – SIGNAL INVESTIGATION STUDY**

SECTION 1 – GENERAL	
Subject 1 – Format	2-1-1
SECTION 2 – DATA COLLECTION	
Subject 1 – Vehicular/Pedestrian Volumes	2-2-1
Subject 2 – Crash Records/Analysis	2-2-2
Subject 3 – Intersection Characteristics	2-2-3
SECTION 3 – TRAFFIC SIGNAL WARRANTS	
Subject 1 – Standard Investigation Practices	2-3-1
Subject 2 – Right-Turn Inclusions	2-3-2
Subject 3 – <i>WisMUTCD</i> Warrants	2-3-3
SECTION 4 – DOCUMENTATION	
Subject 1 – Sample Study	2-4-1

## **CHAPTER 3 – PROJECT SCOPING PROCESS & GEOMETRIC DESIGN CONSIDERATIONS**

SECTION 1 – FUNDING	
Subject 1 – General	3-1-1

SECTION 2 – CAPACITY ANALYSIS	
Subject 1 – Intersection Capacity Analysis	3-2-1
Subject 2 – Basic Parameters for Capacity Analysis	3-2-2

**NOTE:** *This section offers only interim guidance regarding intersection geometrics, which will be placed in the FDM in the future.*

SECTION 3 – INTERSECTION GEOMETRICS	
Subject 1 – Basic Guidelines for Intersection Design	3-3-1
Subject 2 – Right-of-Way	3-3-2
Subject 3 – Corridor Considerations	3-3-3
Subject 4 – Design Vehicle & Turning Templates	3-3-4
Subject 5 – Left Turn Lanes	3-3-5
Subject 6 – Right Turn Lanes	3-3-6
Subject 7 – Medians & Islands	3-3-7
Subject 8 – Pedestrians	3-3-8
Subject 9 – Adjacent Access/Intersections	3-3-9
Subject 10 – Future Traffic Signals	3-3-10

SECTION 4 – OPERATIONAL CONSIDERATIONS & NEEDS	
Subject 1 – Left Turn Phasing	3-4-1
Subject 2 – Right Turn Control	3-4-2
Subject 3 – Pedestrian Phasing	3-4-3
Subject 4 – Overlap	3-4-4
Subject 5 – Traffic Signal Coordination/Communication	3-4-5
Subject 6 – Control Cabinet Service Placement	3-4-6
Subject 7 – Railroads	3-4-7
Subject 8 – Emergency Vehicles	3-4-8
Subject 9 – Temporary Signals	3-4-9
Subject 10 – Interchanges	3-4-10

SECTION 5 – OTHER CONSIDERATIONS	
Subject 1 – Local Coordination	3-5-1
Subject 2 – Jurisdictional Transfer Issues	3-5-2
Subject 3 – Utilities, Historical and Environmental Issues	3-5-3
Subject 4 – Community Sensitive Design (CSD)	3-5-4

**CHAPTER 4 – FIELD INVESTIGATION GUIDELINES**

SECTION 1 – GENERAL	
Subject 1 – Introduction	4-1-1
SECTION 2 – INTERSECTION INVENTORY	
Subject 1 – Geometrics	4-2-1
Subject 2 – Utility Conflicts	4-2-2
Subject 3 – Control Cabinet Service Location	4-2-3
Subject 4 – Checklist	4-2-4

**CHAPTER 5 – SIGNAL PLAN FORMAT**

SECTION 1 – PERMANENT SIGNAL PLAN FORMAT	
Subject 1 – General	5-1-1
Subject 2 – Plan Sheet	5-1-2
Subject 3 – Sequence of Operations Sheet	5-1-3
Subject 4 – Signal Cabling	5-1-4
Subject 5 – Underground Plan for Future Signals	5-1-5
Subject 6 – Miscellaneous Quantities	5-1-6
SECTION 2 – TEMPORARY SIGNAL PLAN FORMAT	
Subject 1 – Temporary Signal Plan	5-2-1
Subject 2 – Partial Temporary Signal Plan	5-2-2
Subject 3 – Temporary Bridge Signal Plan	5-2-3
SECTION 3 – SIGNAL PLAN REVISIONS	
Subject 1 – General	5-3-1
SECTION 4 – SIGNAL PLAN DEVELOPMENT PROCESS	
Subject 1 – Signals within Improvement Projects	5-4-1
Subject 2 – Permit Projects	5-4-2
Subject 3 – Signal Revisions using State Electrical Forces	5-4-3
SECTION 5 – SAMPLE PLAN SHEETS	
Subject 1 – Sample Project	5-5-1

**CHAPTER 6 – SIGNAL INFRASTRUCTURE DESIGN**

SECTION 1 – PERMANENT SIGNALS	
Subject 1 – Introduction	6-1-1
Subject 2 – Signal Head Layout	6-1-2
Subject 3 – Signal Poles and Foundations	6-1-3
Subject 4 – Conduit Size, Type, and Layout	6-1-4
Subject 5 – Control Cabinet/Electrical Service	6-1-5
Subject 6 – Pull Boxes	6-1-6
Subject 7 – Signing and Pavement Marking	6-1-7
Subject 8 – Intersection Lighting	6-1-8

Subject 9 – Pedestrian/Bicyclist Crossings	6-1-9
Subject 10 – Emergency Vehicle Preemption (EVP) Detection	6-1-10
Subject 11 – Monotube Signal Arms and Pole Structures	6-1-11
SECTION 2 – TEMPORARY SIGNALS	
Subject 1 – Signal Head Design/Layout	6-2-1
<b><u>CHAPTER 7 – SEQUENCE OF OPERATIONS</u></b>	
SECTION 1 – GENERAL	
Subject 1 – Introduction	7-1-1
Subject 2 – NEMA Operations	7-1-2
Subject 3 – Overlaps	7-1-3
Subject 4 – Dual/Single Entry	7-1-4
Subject 5 – Sequence Chart Layout	7-1-5
Subject 6 – Other Charts	7-1-6
Subject 7 – Flashing Yellow Arrow	7-1-7
<b><u>CHAPTER 8 – DETECTOR AND CONTROLLER LOGIC</u></b>	
SECTION 1 – VEHICLE DETECTION	
Subject 1 – Detector/Controller Functions	8-1-1
Subject 2 – Detector Types	8-1-2
Subject 3 – General	8-1-3
Subject 4 – Construction Considerations	8-1-4
Subject 5 – Advance or Far Detection	8-1-5
Subject 6 – Near Detection	8-1-6
Subject 7 – Left-Turn Detection	8-1-7
Subject 8 – Inductance Calculations	8-1-8
SECTION 2 – GENERAL	
Subject 1 – Detector/Controller Logic Chart	8-2-1
SECTION 3 – TEMPORARY SIGNALS	
Subject 1 – Detection	8-3-1
<b><u>CHAPTER 9 – ELECTRICAL CABLE</u></b>	
SECTION 1 – GENERAL	
Subject 1 – Cable Type/Information/Connections	9-1-1
<b><u>GLOSSARY OF TERMS</u></b>	
<b><u>INDEX</u></b>
