ADDENDUM NO. 01

1166-04-85

July 8, 2026

Special Provisions

23. Diamond Grinding.

Replace entire article language with the following:

Add the following to standard spec 420.3.4:

An acceptable material disposal site may be one of the following:

- A wastewater storage structure located at a non-metallic mine (NMM) site with active coverage under the WPDES Mineral Mining and/or Processing General Permit (WI-0046515-07-2) or a concrete washout pond with active coverage under the Concrete Products Operations General Permit (WI-0046507-06-0). The site, wastewater disposal structure, and concrete washout pond must meet WDNR requirements related to the disposal of the material at the site. The landowner/permittee is responsible for working with the appropriate WDNR WPDES program specialist to obtain all necessary approvals prior to accepting material at the site.
- A licensed landfill if the licensed landfill agrees to accept the material.
- Other sites and alternatives regulated, permitted, and approved by the WDNR for the acceptance of concrete slurry.

Perform all necessary coordination with the site owners and operators, including any agreements to accept the material; and ensure all permitting and SWPPP updates are in place.

END OF ADDENDUM
