

TABLE OF CONTENTS

Chapter 10: Erosion Control and Storm Water Quality

Section 10-1 General Introduction

- [10-1-1](#)Purpose and Objectives
 - [1.1](#)Originator
 - [1.2](#)Purpose
 - [1.3](#)Chapter Organization
 - [1.4](#)Glossary
- [10-1-2](#)Applicable Laws and Permits
 - [2.1](#)Federal, State, and Local Laws and Regulations
 - [2.2](#)Transportation Construction General Permit
 - [2.3](#)Transportation Separate Storm Sewer System Permit
 - [2.4](#) Wis. Adm. Code, Chapter Trans 401
 - [2.5](#)Administration Rules for Erosion and Sediment Control on Highway Construction Projects
- [10-1-3](#)Erosion Control Plan
 - [3.1](#)Limit Off-Site Effects
 - [3.2](#)Facilitate Construction and Minimize Cost
 - [3.3](#)Laws & Regulations
- [10-1-5](#)The Erosion Process
- [10-1-10](#)Basic Principles of Erosion and Sediment Control

Section 10-5 Developing an Erosion Control Plan

- [10-5-1](#)Communication and Coordination
 - [1.1](#)Internal Communication and Coordination
 - [1.2](#)External Communication and Coordination
- [10-5-5](#)Planning and Location Considerations
- [10-5-10](#)Erosion Sensitive Areas
- [10-5-15](#)Environmental and Customer Sensitive Areas
- [10-5-20](#)Soils Investigation
- [10-5-25](#)Geometric Considerations
 - [25.1](#)Introduction
 - [25.2](#)Topography
 - [25.3](#)Alignment and Grade
 - [25.4](#)Cross Sections
 - [25.5](#)Proper Shaping for Erosion Control
 - [25.6](#)Cut-To-Fill Transitions (Cut Runouts)
 - [25.7](#)Culverts
- [Attachment 25.1](#)Erosion Control Prevention
- [Attachment 25.2](#)Erosion Control at Cut to Fill Transition
- [Attachment 25.3](#)Transition from Cut of Fill
- [10-5-30](#)Drainage Guidance for Erosion Control
 - [30.1](#)Natural Drainage
 - [30.2](#)Adjacent Areas
 - [30.3](#)Local Input
 - [30.4](#)Storm Design Guidance and Channel Capacity
 - [30.5](#)Storm Water Runoff
- [10-5-35](#)Channel and Slope Matrics
 - [Attachment 35.1](#)Channel Erosion Control Matrix
 - [Attachment 35.2](#)Slope Erosion Control Matrix
- [10-5-40](#)Calculating Shear Stress in Channels
 - [Attachment 40.1](#)Manning's Roughness Coefficients Table
 - [Attachment 40.2](#)Nomograph for Flow in Triangular Channels

<u>10-5-45</u>	Analyzing Costs
<u>45.1</u>	Cost vs. Effectiveness
<u>10-5-50</u>	Estimating Erosion Control Quantities
<u>50.1</u>	Mobilization for Erosion Control
<u>50.2</u>	Emergency Mobilization for Erosion Control
<u>10-5-55</u>	Erosion Control Plan Preparation
<u>55.1</u>	Introduction
<u>55.2</u>	Special Provisions
<u>55.3</u>	Construction Plans
<u>10-5-60</u>	Checklist for Erosion Control Plans
Attachment 60.1	Erosion Control Plan Checklist
Attachment 60.2	Runoff Coefficient Table
<u>10-5-65</u>	Construction Considerations
<u>10-5-70</u>	Maintenance Considerations

Section 10-10 Erosion and Sediment Control Devices

<u>10-10-1</u>	Devices and Measures Available
<u>1.1</u>	Introduction
<u>1.2</u>	Devices Available
<u>1.3</u>	Devices Required on All Grading Projects
<u>1.4</u>	Temporary vs. Permanent Measures
Attachment 1.1	Erosion Control Measures
Attachment 1.2	Summary of Control Measure Applications
Attachment 1.3	Example of Selected Control Measures Used in Combination
<u>10-10-3</u>	Vegetation
<u>10-10-6</u>	Seeding
<u>6.1</u>	Definition
<u>6.2</u>	Application
<u>6.3</u>	Design Guidance
<u>10-10-8</u>	Water
<u>8.1</u>	Definition
<u>8.2</u>	Application
<u>8.3</u>	Design Guidance
<u>8.4</u>	Considerations
<u>8.5</u>	Estimating Quantities
<u>10-10-9</u>	Sodding
<u>9.1</u>	Definition
<u>9.2</u>	Application
<u>9.3</u>	Design Guidance
<u>9.4</u>	Limitations
<u>10-10-10</u>	Mowing
<u>10.1</u>	Definition
<u>10.2</u>	Application
<u>10.3</u>	Design Guidance
<u>10.4</u>	Considerations
<u>10.5</u>	Estimating Quantities
<u>10-10-11</u>	Topsoil
<u>11.1</u>	Definition
<u>11.2</u>	Application
<u>11.3</u>	Design Considerations
<u>10-10-12</u>	Fertilizer
<u>12.1</u>	Definition
<u>12.2</u>	Application
<u>12.3</u>	Design Considerations
<u>10-10-13</u>	Mulching
<u>13.1</u>	Definition
<u>13.2</u>	Application
<u>13.3</u>	Design Considerations
<u>10-10-15</u>	Erosion Mat
<u>15.1</u>	Definition
<u>15.2</u>	Application
<u>15.3</u>	Design Guidance
<u>15.4</u>	Erosion Mat Classes and Types
<u>15.5</u>	General Performance Measures

<u>Attachment 15.1.....Erosion Mat</u>	
<u>10-10-17</u>	<u>Interlocking Cells</u>
17.1.....	Definition
17.2.....	Application
17.3.....	Design Guidance
<u>10-10-19</u>	<u>Riprap or Grouted Riprap</u>
19.1.....	Definition
19.2.....	Application
19.3.....	Riprap
19.4.....	Grouted Riprap
19.5.....	Design Guidance
<u>10-10-21</u>	<u>Erosion Bale Barriers</u>
21.1.....	Definition
21.2.....	Application
21.3.....	Limitations
21.4.....	Design Guidance
21.5.....	Estimating Quantities
<u>10-10-22</u>	<u>Temporary Ditch Checks</u>
22.1.....	Definition
22.2.....	Application
22.3.....	Limitations
22.4.....	Design Guidance
22.5.....	Estimating Quantities
<u>10-10-23</u>	<u>Silt Fence</u>
23.1.....	Definition
23.2.....	Application
23.3.....	Limitations
23.4.....	Design Guidance
23.5.....	Estimating Quantities
<u>10-10-24</u>	<u>Heavy Duty Silt Fence</u>
24.1.....	Definition
24.2.....	Application
24.3.....	Limitations
<u>10-10-25</u>	<u>Stone or Rock Ditch Checks</u>
25.1.....	Definition
25.2.....	Application
25.3.....	Design Guidance
<u>10-10-26</u>	<u>Polyethylene Sheeting</u>
26.1.....	Definition
26.2.....	Application
25.3.....	Design Guidance
<u>10-10-27</u>	<u>Storm Drain Inlet Protection</u>
27.1.....	Definition
27.2.....	Application
27.3.....	Design Guidance
<u>10-10-29</u>	<u>Culvert Inlet Protection</u>
29.1.....	Definition
29.2.....	Application
29.3.....	Design Guidance
<u>10-10-31</u>	<u>Outlet Protection</u>
31.1.....	Definition
31.2.....	Application
31.3.....	Design Guidance
<u>10-10-33</u>	<u>Subsurface Drains</u>
33.1.....	Definition
33.2.....	Application
33.3.....	Design Guidance
<u>10-10-37</u>	<u>Diversion Dikes/Intercepting Embankments</u>
37.1.....	Definition
37.2.....	Application
37.3.....	Design Guidance
<u>10-10-39</u>	<u>Benching</u>
39.1.....	Definition
39.2.....	Application
39.3.....	Design Guidance

Attachment 39.1.....Benched Slope Examples	
<u>10-10-41</u>Dust Control
41.1.....	Definition
41.2.....	Application
41.3.....	Design Guidance
<u>10-10-42</u>Tracking Pads
42.1.....	Definition
42.2.....	Application
42.3.....	Design Guidance
42.4.....	Considerations
42.5.....	Estimating Quantities
<u>10-10-43</u>Silt Screen
43.1.....	Definition
43.2.....	Application
43.3.....	Design Guidance
<u>10-10-45</u>Turbidity Barrier
45.1.....	Definition
45.2.....	Application
45.3.....	Design Guidance
<u>10-10-47</u>Soil Stabilizer, Type B (Land Application of Polymers)
47.1.....	Definition
47.2.....	Application
47.3.....	Design Guidance
<u>10-10-48</u>Water Application of Polymers
48.1.....	Definition
48.2.....	Application
48.3.....	Design Guidance
<u>10-10-49</u>Intermittent Channels
49.1.....	Definition
49.2.....	Application
49.3.....	Design Guidance
<u>10-10-51</u>Sediment Traps and Basins
51.1.....	Definition
51.2.....	Application
51.3.....	Design Guidance
<u>10-10-55</u>Safety Fence
55.1.....	Definition
55.2.....	Application
55.3.....	Design Guidance
<u>10-10-57</u>Other Devices
57.1.....	Pipe Down Drains
57.2.....	Preformed Apron Endwalls
57.3.....	Mortar Rubble Masonry or Concrete Masonry
57.4.....	Anti-Seepage Collar
57.5.....	Weep Holes
57.6.....	Scour Hole
57.7.....	Flumes
57.8.....	Gabions
57.9.....	Bin Type Retaining Walls
57.10.....	Sheeting
57.11.....	Structure Protection

Section 10-15 Appendix

<u>10-15-1</u>Glossary
<u>10-15-5</u>Erosion Control CADD Cells
Attachment 5.1.....	Runoff Coefficient Table
Attachment 5.2.....	Detail of Sod Slopes at Structures
Attachment 5.3.....	Sod Detail for Ditches
Attachment 5.4.....	Sod Inlet Sediment Filter
Attachment 5.5.....	Sod Treatment at Culverts
Attachment 5.6.....	Detail of Sod Flume
Attachment 5.7.....	Sod Flume Detail at Curb Ends
Attachment 5.8.....	Sod Flume Detail at Curb Ends
Attachment 5.9.....	Detail of Sod Flume

<u>Attachment 5.10</u>Erosion Mat Detail for Ditches
<u>Attachment 5.11</u>Erosion Mat Treatment at Culverts
<u>Attachment 5.12</u>Detail for Heavy Riprap in Ditches
<u>Attachment 5.13</u>Detail for Special Ditch with Heavy Riprap & Geotextile Fabric
<u>Attachment 5.14</u>Detail for Heavy Riprap Ditch
<u>Attachment 5.15</u>Detail for Riprap in Ditches
<u>Attachment 5.16</u>Detail for Medium Random Riprap in Ditches
<u>Attachment 5.17</u>Detail for Special Ditch with Medium Random Riprap & Geotextile Fabric
<u>Attachment 5.18</u>Detail for Special Ditch with Riprap and Geotextile Fabric
<u>Attachment 5.19</u>Medium Random Riprap Treatment at Culverts
<u>Attachment 5.20</u>Riprap Treatment at Culverts
<u>Attachment 5.21</u>Sod Heavy Riprap & Geotextile Fabric Detail at Apron Endwalls
<u>Attachment 5.22</u>Sod Heavy Riprap & Geotextile Fabric Detail at Apron Endwalls
<u>Attachment 5.23</u>Sod Medium Random Riprap & Geotextile Fabric
<u>Attachment 5.24</u>Heavy Riprap Treatment at Culverts
<u>Attachment 5.25</u>Erosion Bale Inlet Sediment Barrier
<u>Attachment 5.26</u>Silt Fence Inlet Sediment Barrier
<u>Attachment 5.27</u>Plan View Filter Berm
<u>Attachment 5.28</u>Permanent Stone Ditch Check
<u>Attachment 5.29</u>Coarse Aggregate Sediment Filter for Inlets
<u>Attachment 5.30</u>Curb Inlet Sediment Barrier (Sandbag Type)
<u>Attachment 5.31</u>Curb Inlet Sediment Barrier (Sandbag Type)
<u>Attachment 5.32</u>Coarse Aggregate Sediment Filter For Drop Inlets
<u>Attachment 5.33</u>Culvert Inlet Sediment Trap
<u>Attachment 5.34</u>Silt Screen Detail
<u>Attachment 5.35</u>Turbidity Barrier Detail
<u>Attachment 5.36</u>Typical Excavated Sediment Trap
<u>Attachment 5.37</u>Sediment Basin & Outlet Detail
<u>Attachment 5.38</u>Silt Pond Detail
<u>Attachment 5.39</u>Temporary Flexible Slope Drain
<u>Attachment 5.40</u>Concrete Surface Drain
<u>Attachment 5.41</u>Split Concrete Block Wall
<u>Attachment 5.42</u>Typical Section of Temporary Channel Change
<u>Attachment 5.43</u>Detail for Split Concrete Block Retaining Wall
