**What are driver record abstracts?**

Driver record abstracts are computer-generated copies of DMV's driver records. Most driver record entries are retained for the preceding five years; however, certain convictions can result in a driver record being retained indefinitely. Driver abstracts contain the following standard information:

- name and address
- driver license or identification card number
- sex and date of birth
- former names
- dates and types of traffic convictions, accidents, restrictions, and withdrawals

**Who requests these abstracts?**

Federal and state government agencies, county courts and enforcement agencies request information for various reasons. These abstracts are provided at no cost to the users.

Insurance companies, employers, school bus contractors, businesses, and the general public also request information for various reasons. These users pay a fee for the abstracts.

**Why does DOT provide this information?**

Wisconsin's Motor Vehicle Law and Open Records Law provide that anyone who requests and pays the appropriate fee can obtain any person's driver record information.

**Is any information confidential?**

Medical information is confidential and is only released if the driver has signed a release authorization form.

Certain information on juveniles (such as suspensions for juvenile alcohol and truancy) is also confidential and will only be released to courts, law enforcement and, in some cases, parents or guardians.

Social Security numbers are used for driver licensing purposes and are not available to the public.

Identification (ID) card information is also confidential and can only be released to the following: the courts; district attorneys; county corporation counsels; city, village or town attorneys; law enforcement agencies; the ID card holder; or to the parent/legal guardian of an ID card holder who is under 18 years of age.

**Can drivers request suppression of personal identifiable data on files used for marketing and research?**

Yes, customers can "opt out" by completing MV3592. If 10 or more records are requested their personal identifiable data will be suppressed. There are currently 44,564 driver records containing the "opt out" notation. Forms can be obtained at all DMV Service Centers.

**How are requests made?**

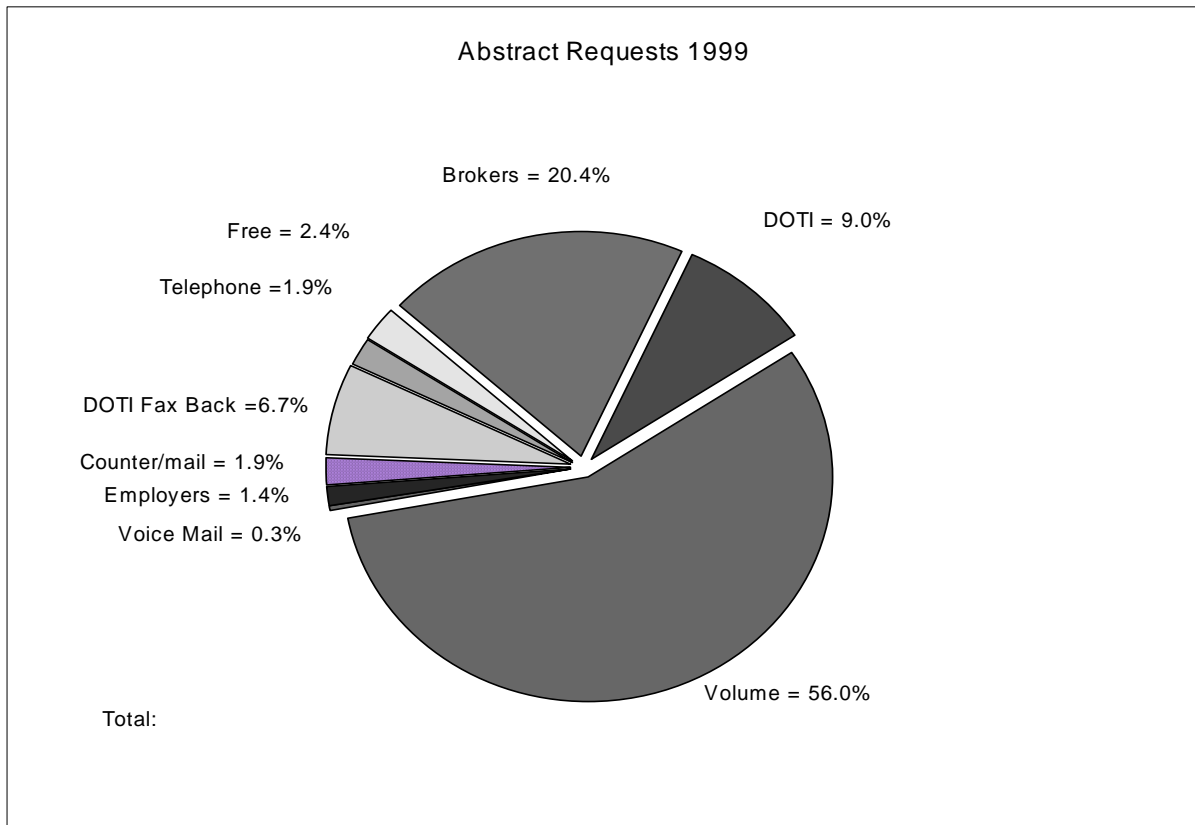

Requests can be made in writing or in person, at Hill Farms Room 334 in Madison. Some large volume requesters maintain telephone accounts for immediate response by our computerized automated voice system (DOTI), or telephone personnel. Other volume users provide computer tapes of requests, for next-day return of abstract information.

## 6 Abstract (Driver Record)

Written copies of abstracts are \$3 each. Telephone account holders pay \$4 per request when they receive information over the phone from an operator in addition to a printed abstract. Telephone account holders may receive information via DOTI, at \$3 per inquiry.

**When must an accident be reported?**

An accident must be reported when it results in:

- injury or death of a person
- \$1,000 or more total damage to property owned by any one person
- damages of \$200 or more to government property (except motor vehicles)

**Who reports accidents to the State of Wisconsin?**

Generally, law enforcement agencies investigate and file the written reports with the DMV. In those reportable accidents where an enforcement agency does not investigate and/or file a report, the people involved are required to file one. Report forms are available from the division, law enforcement agencies and DMV Service Centers located throughout the state.

**What does the Department do with information that is reported?**

DMV creates an accident entry on the driver record of each driver shown on the accident report. Although fault is not indicated on the driving record, DMV follows-up on accident reports to ensure at-fault drivers are insured or make alternative arrangements to cover their accident liability. Accident entries remain on the driver record for 4 years from the date of the accident.

DMV enters and stores detailed information from the accident report form into a computerized system. The accident diagram, narrative and the names and addresses of uninjured occupants and witnesses are not stored on the computer.

**Who uses accident data?**

Primary users of accident data are:

- the Department of Transportation for analysis of highway safety
- the DMV for administration of the Safety Responsibility Law
- law enforcement agencies for selective enforcement
- Traffic Safety Commissions and traffic engineers for safety and elimination of hazards
- driver educators, legislators, insurance companies and other interested parties
- County Highway Safety Commissions to meet their duties under S. 83.013, Wis. Statutes
- Local units of government to target specific accident locations

Accident Reporting Threshold Changes:

- December 20, 1979      Property damage threshold increased from \$200 to \$400 combined damage. \$200 threshold for government owned property.
- July 31, 1981        Property damage threshold \$500 to “any one person’s property.” \$200 threshold for government-owned property.
- April 19, 1988       Property damage threshold \$500 to “any one person’s property.” Government-owned property changed to \$500 for government-owned vehicles, and \$200 for all other government-owned property.
- January 1, 1996       Property damage threshold changed to \$1,000 to “any one person’s property.” Government-owned property changed to \$1,000 for government-owned vehicles, but remained at \$200 for all other government-owned property.

Note: The “reporting threshold” is the minimum set of criteria that must be met before an accident is considered to be reportable. The above represent changes to the reporting threshold over recent years.

## 10 Administrative Rules in Calendar 1999

---

**Trans 134** - New administrative rule governing license plates for authorized special groups. The rule details requirements and procedures for authorizing a special group, applying for special group license plates, issuance and discontinuing issuance of special group plates. Effective 1/1/2000.

**What is an administrative suspension?**

The administrative suspension law provides for the withdrawal of a person’s operating privilege if he or she is arrested for operating a motor vehicle with a prohibited alcohol concentration.

The arresting officer takes possession of the license and issues a notice of intent to suspend. The notice serves as a driving receipt and is valid for 30 days.

The driver has 10 days during which to request a review of the suspension. If no review is requested, or if a review is held and the outcome is adverse to the person, the suspension will take effect 30 days after the notice of intent to suspend is issued.

**What is the length of a suspension?**

The suspension is for a period of six months. It does not allow retention of any part of the operating privilege.

**Who orders the suspension?**

The DMV administratively suspends the person’s privilege. The person must still go through the usual court procedures for the OWI arrest, which may result in additional sanctions against the person’s operating privilege.

**Is an occupational license available?**

A person may petition for an occupational license immediately under an administrative suspension.

## 12 Aircraft Registration

---

### **What is aircraft registration?**

Private non-commercial aircraft based in Wisconsin are required to either obtain registration or file for an exemption. Wisconsin aircraft registration was first implemented in the 1950s at the same time that private aircraft were exempted from the local property tax. The Federal Aviation Administration (FAA) issues Federal registration for aircraft.

### **Do aircraft actually have license plates?**

No. All aircraft are issued an "N" number by the FAA, for example "N-1234." This number must be displayed on a visible part of the aircraft. Having an "N" number does not mean that registration is current. Aircraft are issued a certificate of registration similar to the certificate of registration issued for highway vehicles.

### **Why is DMV now registering aircraft?**

Aircraft registration was previously handled by the Bureau of Aeronautics in the Division of Transportation Infrastructure Development. DMV staff are registration experts, efficiently handling almost 4 million vehicle renewals annually. Aircraft registration is very similar to vehicle registration. There are 21 weight categories for registration fees, annual and biennial registration. There is a registration category of antique aircraft very similar to antique and collector motor vehicles. There are a number of aircraft types that are exempt from registration fees. Even the aircraft registration form looks very much like DMV's MV1 form.

### **How is aircraft registration enforced?**

All aircraft using federal or state-financed airports must be registered with the FAA in order to use a publicly-financed airport. A match with DOT and FAA records is done annually to check for non-registered aircraft. Owners of unregistered aircraft are contacted by DOT. If aircraft registration fees are not paid, the FAA is contacted and a lien is placed on the aircraft listing DOT as a lienholder. This FAA lien is not removed until all fees, including late penalties, are paid to DOT. Bureau of Aeronautics staff on airport inspection trips will check for unregistered aircraft. If any unregistered aircraft are found, the owner will be sent a letter by DMV. Airport operators are also instructed to check for unregistered aircraft. As revenue from aircraft registration goes to Wisconsin airport maintenance and improvement funding, there has been very good cooperation with aircraft owners and airport operators in finding unregistered aircraft.

### **What is the annual volume for aircraft registration activities?**

Registered aircraft as of December 31, 1999: 10,921  
Renewals processed annually: 5,169, based in WI  
Unregistered aircraft found through FAA match: 350  
Late renewal notices sent: 130

Vehicle Registration and Titling Unit  
(608) 266-1861

**What is an alcohol and drug assessment?**

An alcohol or drug assessment is an interview between a driver and an alcohol and other drug abuse (AODA) assessor. The assessor identifies the driver's alcohol/drug use. As part of the assessment, the assessor develops a driver safety plan for the driver. 35,143 assessments were completed in 1999.

**When is an assessment required?**

Anyone convicted of operating while intoxicated (OWI) is required to contact an approved assessment facility within 72 hours of conviction. Anyone with multiple OWI arrests/convictions over a specified period of time is ordered by WisDOT for an assessment within 45 days. Second and subsequent OWI convictions require completion of an assessment before eligibility for an occupational license. An individual may voluntarily obtain an assessment after an arrest.

**What are driver safety plans?**

Driver safety plans are training or rehabilitation plans based on findings. For example, when an assessor identifies drivers as:

- **Irresponsible Users**, they are generally sent to a Group Dynamics-Traffic Safety program
- **Irresponsible Users - Borderline**, they are generally a combination of education and short-term, outpatient counseling
- **Having Suspected Chemical Dependency**, they are generally sent to outpatient treatment programs
- **Chemically Dependent**, they are generally sent to inpatient or intensive outpatient treatment programs

**What happens after the driver completes an assessment?**

The assessor submits a report to the DMV. The Compliance and Restoration Section in the Bureau of Driver Services screens the report to see whether:

- the assessment and driver safety plan are appropriate
- the assessor recommends the individual for a license
- the assessment mentions all OWI related offenses

The person may be eligible for a license once the plan is submitted.

**What happens to non-compliant drivers?**

All licenses are suspended, including occupational licenses, if a person receives another arrest for OWI while in a plan or does not:

- appear for an assessment
- comply with a Driver Safety Plan
- pay the fee for the assessment or the Driver Safety Plan

In 1999, Compliance and Restoration processed 22,642 non-compliance cases.

## 14 Buyer Identification (BID) Card

---

### What is a BID card?

A Buyer Identification (BID) card is a piece of identification which permits the holder to attend salvage auction pools. DMV licenses persons who wish to purchase damaged motor vehicles from motor vehicle salvage pools. The BID card holder must be an employee of a licensed dealer and may hold BID cards for more than one dealer at a time.

### What are the requirements?

Buyer Identification card holders must be:

- a motor vehicle dealer, wholesaler, or salvage dealer licensed in Wisconsin or another jurisdiction;
- or an employee of a motor vehicle dealer, wholesaler or salvage dealer
- of good character

### What does a BID card cost?

The annual fee is \$6. The fee for a replacement card or renewal is also \$6. Fees of Wisconsin dealers and their employees are collected for two years and licenses are issued for two years. Out-of-state BID card holders are issued a card good for the current calendar year.

<b>What is a title?</b>	A Certificate of Title is evidence of vehicle ownership.
<b>When is a title issued?</b>	The DMV issues a title when it has confirmed who owns the vehicle.
<b>What documents are required?</b>	<p>An application for title requires the following documents:</p> <ul style="list-style-type: none"> <li>· Application for Title/Registration, Form MV1, if private (non-dealer) sale of an auto or MV11 (dealers only)</li> <li>· Odometer Mileage Statement (on the title or Form MV2493) signed and dated by the former owner</li> <li>· proof of ownership (Manufacturer's Statement of Origin for a new vehicle or the current Certificate of Title/Ownership from Wisconsin or another jurisdiction, properly signed by the sellers)</li> </ul> <p>Some transactions require additional documents.</p>
<b>How do I title and register my homemade trailer?</b>	Complete an MV1 form indicating the weight at which you wish to register the trailer. Attach information on the type of trailer, width, length, axles, year built and the builder. DMV will issue a Vehicle Identification Number (VIN). You then need to permanently attach this VIN to the trailer and have it inspected by either a licensed motor vehicle dealer or police officer. After you have returned the inspection form, DMV will issue a title and registration.
<b>What does a title cost?</b>	The fee for filing an application for the first, or <i>original</i> title, or a title transfer, is \$22.00. State and County sales taxes and a tire fee may also apply, as well as registration fees for vehicle operation on Wisconsin highways. Notation of a security interest (lien holder) costs \$4. Replacement titles — lost, stolen or mutilated — cost \$8.
<b>What appears on a title?</b>	<p>The "facts" which appear on a title include:</p> <ul style="list-style-type: none"> <li>· the name and address of the owner</li> <li>· a description of the vehicle, including make, identification number and any other information reasonable for the identification of the vehicle</li> <li>· the name of secured party (lien holder) if applicable</li> <li>· odometer reading information</li> <li>· the license plate number assigned to the vehicle at the time title is issued</li> <li>· if a replacement title, Replacement Title Notation</li> <li>· title branding — if applicable</li> <li>· undisclosed Security Interest — if applicable</li> <li>· previously titled in another state — if applicable</li> </ul>

## 16 Certificate of Title

---

### Where do I apply for a title?

A title application may be mailed to: Wisconsin Division of Motor Vehicles, P.O. Box 7949, Madison, WI 53707-7949 or, for an additional \$5 counter service fee, taken to one of the DMV Service Centers around the state which offer registration service.

**What are citations?**

Enforcement officers issue traffic citations (tickets) to drivers for violations of traffic laws. Most citations are written on the Wisconsin Uniform Traffic Citation form. Each citation must be resolved by a court action.

**What are convictions?**

A traffic conviction results from a guilty plea or court finding of guilty when a person is cited for a traffic violation. When a court finds a driver guilty of a charge, the person usually pays a fine or forfeiture and is assessed demerit points on point assessable offenses.

**What happens to citations and convictions?**

The courts forward all citations to the DMV who edit, sort and microfilm the citations before sending them to a vendor for data entry. The vendor creates a computer tape that updates the driver record with the convictions. Some courts transmit citations electronically to DMV.

**Why are they recorded on the driver record?**

DMV is required to record convictions to establish a person's driving history. The DMV maintains this history of Wisconsin drivers to determine when licensing action is necessary. Some single convictions require that DMV take licensing action. Other times a driver's accumulation of demerit points triggers an action.

**How long does a conviction remain on the record?**

In general, convictions remain on the driver record for five years from date of conviction. There are some situations, however, where entries remain on the record beyond five years. These include non-compliance with a driver safety plan, unsatisfied damage judgments, all commercial motor vehicle disqualifying convictions and alcohol related convictions.

**Do convictions from other states affect a person's Wisconsin record?**

Yes, when Wisconsin drivers are convicted in other states DMV enters the convictions on the Wisconsin driver record but without points being assessed. With a serious offense, such as operating while intoxicated, drivers may lose their Wisconsin license.

**What happens to out-of-state drivers?**

When a nonresident is convicted in Wisconsin, DMV notifies the driver's home state of the offense so that state can take appropriate action. A Wisconsin driver record is created for major offenses and license actions are entered the same as for a Wisconsin driver.

## 18 Citations and Convictions

Source: Bureau of Driver Services, Report #P7011923-2 (convictions entered); Records and Licensing Information Section (convictions processed)

‘Entered’ means convictions were posted to the Driver Record.

‘Processed’ includes convictions posted to the Driver Record and those that do not post to the Driver Record. For example, tickets that are written to OOS drivers, to companies, that are dismissed, or not guilty, etc., still need to be sorted, filmed, and processed because of UTC accountability issues.

<b>Total</b>		<b>867,800</b>	

\* Under the legal drinking age (under 21); violation under Chapters 48 & 125

\*\* Under 21 years of age; not-a-drop, Statute 346.63(2m)

\*\*\* Beginning with July 1998 report, OARs and OWSs will be reported as separate totals

### Who needs a CDL?

A commercial driver license (CDL) is required for anyone operating a vehicle that:

1. Weighs over 26,000 pounds. To determine the weight of the vehicle, use the highest of the following weights:
  - manufacturer's gross vehicle weight rating (GVWR)
  - manufacturer's gross combination weight rating (GCWR)
  - actual weight
  - registered weight
2. Carries hazardous materials that require placarding under federal law. (Placarding requirements are found in Title 49, Code of Federal Regulations, part 397.)
3. Is designed or used to carry 16 or more persons including the driver

### What does the law require?

1. Creation of a classified licensing system consisting of:

**Class A** – Any combination of vehicles with a GVWR, actual weight, or registered weight over 26,000 pounds provided the GVWR, actual weight, or registered weight of the towed vehicle(s) is more than 10,000 pounds.

Some examples: tractor-trailer combinations with single or double trailers, “wheelers.”

**Class B** – Any single vehicle with a GVWR, actual weight, or registered weight over 26,000 pounds or such vehicle towing a vehicle with a GVWR, actual weight, or registered weight of 10,000 pounds or less.

Some examples: dump trucks, most buses.

**Class C** – Any single vehicle with a GVWR, actual weight, or registered weight of 26,000 pounds or less (or such vehicle towing a vehicle less than 10,000 pounds) transporting hazardous materials requiring placarding, or designed to carry 16 or more persons including the driver.

Some examples: pick-up trucks, mini-buses, and other small vehicles carrying passengers or placarded for hazardous materials.

**Class D** – Automobiles and light trucks.

**Class M** – Motorcycles.

2. Issuing of only one license to each driver.
3. Testing of commercial drivers. Commercial operators must pass a knowledge exam and a road test in the type of vehicle they drive. School bus drivers are required to pass a knowledge test and abbreviated driving test upon renewal. Commercial drivers with an H endorsement are required to pass a knowledge test upon renewal.

4. Enforcement of the law through the Commercial Driver License Information System (CDLIS), a computer network of all states. Wisconsin has 253,016 commercial drivers entered on CDLIS as of December 31, 1999. This includes instruction permits and licenses.
5. Enforcement of CDL disqualifications for alcohol and serious traffic violations such as .04 in a commercial motor vehicle and speeding in excess in a commercial motor vehicle (15 mph or more).

All commercial drivers were required to be licensed under this law by April 1, 1992.

**What is an endorsement?**

An endorsement allows you to drive a vehicle with special operating characteristics or with passengers. To receive any of the following endorsements you must pass special tests:

- T – Double/Triple Trailers
- N – Tank Vehicles
- H – Hazardous Materials
- S – School Bus
- P – Passenger
- F – Farm Service (Restricted)

**What is a commercial driving school?**

A commercial driving school teaches students to operate a motor vehicle. DMV licenses schools and instructors and inspects them to ensure they continue to meet licensing requirements. There are 86 licensed driving schools employing 364 instructors.

**Are there special requirements for driving school instructors?**

Commercial driving school instructors must:

- hold an instructor's license
- be employed by a licensed driving school
- have held a valid Wisconsin license at least one year
- meet specified driving record criteria
- present an acceptable medical report
- complete a training program
- pass a written and oral test administered by the DMV to evaluate knowledge of instruction procedures, traffic laws, safety equipment and the function of automotive equipment
- pass an extensive road test
- pass a vision and hearing screening

**What does the license cost?**

The driving school license is \$95. The instructor license is \$25. Both licenses expire December 31st each year.

**Can all commercial schools teach persons under age 18?**

A school that teaches persons under 18 must receive prior authorization. They must submit a course outline, lesson plans and the name of the text book. Schools meeting these requirements can teach classroom and/or behind-the-wheel portions of the curriculum and issue the course completion certificates required for licensing.

**How many hours of instruction are required for persons under age 18?**

Classroom instruction consists of 30 hours over a minimum of three weeks. Behind the wheel contains six hours of actual driving and six hours of observation. It may run concurrently with the classroom portion.

**If a person does not complete driver education, what must be done?**

If a person (under 18) does not take the behind-the-wheel portion of driver education within 13 months of completing the classroom instruction, he/she must take a 10-hour refresher course. These courses can be taken at a commercial school which offers the refresher course.

**What does it cost to attend?**

Commercial driving schools determine their own fees.

**For more information contact:**

Bureau of Driver Services  
Records and Licensing Information Section  
(608) 266-2353  
rlis.dmv@dot.state.wi.us

**What complaints are investigated?**

The DMV investigates citizen complaints against motor vehicle manufacturers, distributors, dealers, and salvage dealers for violations related to:

- advertising
- sales practices
- product quality or representation
- warranty service

**How are complaints filed?**

Citizens generally contact the Consumer Assistance Hot Line at (608) 266-1425. DMV consumer specialists advise citizens of pertinent regulations. When appropriate, they will mail a complaint form for completion, return and investigation.

**Is there a fee for filing?**

There is no fee for DMV complaint mediation activities.

**How are complaints handled?**

DMV categorizes the nature of the complaints and enters them into a shared computer file with the state Department of Agriculture, Trade and Consumer Protection. Field investigators or consumer specialists investigate and mediate complaints depending on whether an on-site inspection is necessary.

**What are the results of investigations?**

Complaint resolution is usually achieved through informal mediation. Wisconsin consumers receive over \$1,500,000 back annually in the form of cash adjustments, free or discounted repairs, buy-backs, and refunds. Investigations may also result in the following disciplinary actions:

- advisory letter
- formal warning letter
- court action
- civil forfeiture
- administrative special order
- dealer license denial, suspension or revocation

**Why are dealers inspected?**

Wisconsin statutes and DOT Administrative Code specify acceptable trade practices and business facility and record keeping requirements for motor vehicle, wholesale and salvage dealers. Inspections are necessary to ensure dealers comply with standards.

**What does the inspection consist of?**

Facilities and records are periodically inspected to ensure compliance with state regulations pertaining to maintenance of facilities, record keeping, inspection/disclosure-of-condition of vehicles offered for sale, and proper usage of required forms.

**How often are dealers inspected?**

An initial inspection is made when a first-time application for a wholesale or salvage dealer license is received and each time the dealer changes business location or there is a change of ownership.

First-time retail motor vehicle dealers complete application forms on their individual backgrounds and their business facilities. When their applications are approved, they receive an informational video and guide book on record-keeping and disclosure rules, how to complete a purchase contract and how to complete title/registration applications. A field investigator will inspect the dealership after they've had some time to study the tape and guidebook.

**What do inspections accomplish?**

Licenses are granted, granted conditionally, or denied, based on inspection findings. Periodic inspections result in an "all OK" rating or required corrective action by the dealer within 15 days.

**How much do they cost?**

There is no fee for inspection.

**For more information contact:**

**Who needs a dealer license?**

Wisconsin law states, “Motor vehicle dealer licenses are required of any person, firm or corporation who: for commission, money or other thing of value, sells, leases, exchanges, buys, offers or attempts to negotiate a sale, consumer lease or exchange of an interest in motor vehicles; or who is engaged wholly or in part in the business of selling or leasing motor vehicles, including motorcycles, whether or not such motor vehicles are owned by such person, firm or corporation.”

**Why are dealers licensed?**

Dealers are licensed to ensure fair business competition and provide consumer protection.

**If I sell my own car do I need a license?**

Persons may sell up to five of their own vehicles per year, whether used for personal or business transportation, without obtaining a dealer’s license.

**What are the requirements and qualifications?**

Applicant must be of good character, be financially solvent, and have a permanent business location meeting specified requirements. Proof of financial solvency is accomplished by filing a \$25,000 surety bond, or \$25,000 irrevocable letter of credit with the license application. Dealers of new motor vehicles must be franchised by the manufacturer (or authorized distributor) who must also be licensed.

**What is the cost of a license?**

The various “dealer” licenses and their two-year fees are:

Type	Fee
Motor Vehicle Dealer	\$40
Recreational Vehicle Dealer	\$100
Moped Dealer	\$40
Used Car Wholesaler	\$40
Manufacturer & Distributor	\$40

“Dealer” plate fees are \$150 for the first two plates plus \$10 each additional plate except as noted below:

Wholesaler Auction Dealer	\$100 (plates not issued)
Salvage Dealer	\$150 (plates not issued)

Fees are collected for two years and licenses and plates are issued for two years.

## 34 Disabled Parking Identification Card

---

### What is the purpose of the Disabled Parking Identification Card?

DMV issues Disabled Parking Identification Cards (DISID) to physically disabled persons or to organizations that regularly transport persons with disabilities.

A person displaying a DISID card on their vehicle:

- is exempt from any parking ordinance imposing time limits of one-half hour or more limitation but otherwise is subject to the laws relating to parking.
- can park without payment in metered stalls when the time limit is one-half hour or more.
- may park in spaces reserved for disabled persons marked by official traffic signs indicating the restriction.
- may obtain motor fuel from a full-service pump at the same price as the motor fuel dispensed from a self-service pump at locations which sell both.

### Who may obtain a card?

A card may be obtained by:

- any person certified by a Health Care Specialist to have a disability as defined by statute that limits or impairs the ability to walk.
- an organization that regularly transports persons who have a disability as defined by statute that limits or impairs the ability to walk.

### What is required?

An individual shall complete a special application form which includes a section that must be completed and signed by a physician who is licensed to practice medicine in any state, an advanced practice nurse licensed to practice nursing in any state, a physician assistant who is licensed or certified to practice in any state, a chiropractor licensed to practice chiropractic in any state, a Christian Science practitioner residing in this state and listed in the Christian Science journal, or a representative of the U.S. Department of Veterans Affairs.

An organization's application must be completed by an official of the organization.

### What types of cards are available?

Persons with a permanent disability will be issued a blue disabled parking ID card that must be renewed and recertified every four years. Persons with a temporary disability will be issued a red card that is valid a maximum of six months. If the disability lasts longer than originally estimated, a new card is issued upon completion of an application.

**What do they cost?**

The fee for a disability card (permanent or temporary) is \$6. Applications made at DMV Service Centers are subject to an additional \$3 per application counter service fee.

**For more information contact:**

**What is a disqualification?**

Disqualification means the withdrawal of a person's privilege to operate a commercial motor vehicle because of certain offenses committed by the person while driving or operating a commercial motor vehicle.

**What is the length of a disqualification?**

Periods of disqualification run from a minimum of 60 days to life-time, depending on the number, type, and severity of the violations.

**Who orders a disqualification?**

The law provides that a person is disqualified upon receiving certain types of convictions. There is no specific language providing for either a court or the department to order disqualifications.

**How is a person notified of a disqualification?**

The Division of Motor Vehicles issues an order of disqualification and mails it by first class mail to a person's last known resident address.

**Is an occupational license available?**

No occupational license can be obtained for commercial motor vehicle operation privileges during any period of disqualification.

**For more information contact:**

Source: Bureau of Driver Services, Revocation & Suspensions Section

<b>What is a driver license?</b>	A driver license is evidence of authority to operate a motor vehicle. The two types of driver licenses are <b>probationary</b> or <b>regular</b> .
<b>What is a probationary license?</b>	A probationary license is always a class D and/or class M license issued for 2 years from the licensee's next birthday. DMV issues probationary licenses to: <ul style="list-style-type: none"> <li>· new drivers</li> <li>· persons with foreign or international licenses</li> <li>· persons reinstating revoked or canceled probationary licenses</li> <li>· new residents surrendering a license expired for more than 6 months, or with less than 3 years of driving experience or under the age of 21</li> </ul> <p>Drivers convicted of 2 or more driving offenses with a point penalty are assessed 2 extra points if they have a probationary license.</p>
<b>What is a regular driver license?</b>	DMV issues a regular license after completion of the probationary period. The license is valid for 8 years and can be any combination of the 5 classes (A, B, C, D, M) and 6 endorsements (F, H, N, P, S, T).
<b>What are the requirements for a driver license?</b>	Drivers must be 18 years old or 16 years old and have completed an approved driver education course. Persons 15 years and 6 months old, enrolled in a driver education course, may apply for an instruction permit. Drivers must pass written, sign, vision, and road tests. New drivers must have an instruction permit for at least 10 days before taking the road test.
<b>Who does not need a Wisconsin driver license?</b>	Non-resident visitors to the state and members of the armed forces and their families living in Wisconsin but with permanent residence elsewhere, are not required to obtain a Wisconsin driver license. However, they must have a valid driver license from their home jurisdiction and be at least 16 years of age to operate a motor vehicle in Wisconsin. If residency is established, they must obtain a Wisconsin license within 30 days. Non-registered farm machinery may also be moved short distances via highways without a driver license.
<b>What documentation must be provided?</b>	An applicant must provide: <ul style="list-style-type: none"> <li>· proof of name and date of birth (e.g., a certified birth certificate or passport)</li> <li>· one form of personal identification with signature or photo (if moving to Wisconsin from another state, the license or ID card from that state must be surrendered)</li> <li>· Social Security number</li> <li>· proof of completion of an approved driver education course if under age 18</li> <li>· the signature of an approved adult sponsor (e.g., parent/legal guardian) evidencing sponsorship or acceptance of financial responsibility for the minor as an operator, if applicant is under 18</li> </ul>

**What does a license cost?**

License fees are:

Non-Commercial Driver License	
Instruction permit	\$20
Motorcycle instruction permit	\$22
Driving skills exam	
Auto (Class D)	\$15
Motorcycle (Class M)	\$15
Original Probationary or Regular License	
Auto (Class D)	\$18
Motorcycle (Class M)	\$12
Renewal License – 8 year	
Auto (Class D)	\$24
Motorcycle (Class M)	\$8
4-year extension (Class D)	\$12
(Class D/M)	\$16
Commercial Driver License	
Instruction permit	\$20
Driving skills exam (except school bus)	
(Class A, B, C)	\$20
School bus skills exam (Class B, C, D)	\$10
Original or Renewal License	
(Class A, B and/or C with or	
without endorsements	\$64
Add Class(es) to existing license	\$5
Add Endorsements (each) to existing license	\$5
Lift “K” restriction	
(No operation in interstate commerce)	\$4
Lift “L” restriction	
(Vehicles without air brakes)	\$5

## 40 Driver License Knowledge Exam

---

**What is the purpose of the knowledge exam?**

DMV uses knowledge exams to test applicants' ability to recognize highway signs and knowledge of traffic laws and safe-driving practices.

**How is the exam given?**

The exam is generally a self-administered knowledge test. It is available in Spanish, Vietnamese, Korean, Laotian, Hmong, Polish, Russian, Chinese, Cambodian, German, Italian, Serb/Croatian and Arabic as well as English. Examiners can also give an oral exam to individuals with reading or language difficulty. A department-approved interpreter may be used for learning-impaired persons or to meet special language needs.

**Who is required to take the exam?**

The exams are required for applicants for:

- original instruction permits
- special restricted licenses
- original CDL endorsements
- original or renewal school bus endorsements
- renewal of CDL HazMat endorsements

**Where are exams given?**

The exams are also required for individuals applying for renewal of an instruction permit and renewal of a license expired for more than 4 years.

**What does it cost?**

DMV offers exams at Service Centers on a walk-in basis. The exams are also given at many local high schools in conjunction with their driver-education programs.

There is no cost for taking a knowledge exam. Upon successful completion of the exam, the applicant is issued either an instructional permit or a license for a fee. See "Driver License," "Driving Skills Test," and "Instruction Permits" for applicable fees.

**How many exams are conducted annually?**

Over 317,678 knowledge exams were conducted in 1999.

**Who is required to take a driving skills test?**

Anyone applying for:

- an original Class D operator’s license (auto and small trucks)
- an original Class A, B, or C commercial operator’s license
- an original P (passenger) endorsement to operate large motor buses
- an original S (school bus) endorsement to operate any school bus
- reinstatement of a license expired more than four years
- a restricted license
- a special restricted license
- an original Class M (motorcycle) license

Tests are waived for drivers with a valid out-of-state license and for drivers who have had a valid license within four years. DMV may require a driving skills test whenever it has good cause to question a person’s ability to operate a motor vehicle safely due to a physical or medical disability.

**Where are driving skills tests given?**

DMV conducts driving skills tests, by appointment, at Service Centers located throughout the state.

A licensed driver must accompany an applicant with an instruction permit or expired license. If the applicant is under 18, proof of driver education and sponsorship is also required.

**What do I need to bring to the driving skills test?**

An applicant must provide the appropriate vehicle for the class of license needed. Prior to the test, the examiner inspects the vehicle for safety defects and valid registration. If problems are detected, the driving skills test may be denied.

**What does it cost?**

A driving skills test in a commercial vehicle other than a school bus costs \$20. A skills test in a non-commercial vehicle and school bus costs \$15.

**What comprises a driving skills test?**

Separate tests are given for each license class and endorsement. All tests involve a series of actual traffic situations designed to measure how well the driver responds to road and traffic conditions. Starting/stopping; backing (except for class M); parking; left and right turns; mirror usage; spacing; lane selection and position within a lane; and observing traffic signals; highway signs; right-of-way for vehicles and pedestrians, and other traffic laws are tested for all license classes. The criteria for a class M license include: use of front and rear brakes, balance and control, and position for seeing and being seen. CDL skills test exercises include: a pre-trip inspection; turn around; mountain climb and descent; and, depending on class(es) and endorsement(s) sought, railroad crossing and student discharge. A driving skills test takes 20 to 90 minutes depending on the license class and endorsement for which you are applying.

**If I don't pass, can I take the test again?**

Yes. Depending upon your test results, you may be required to wait 7 or 14 days before another test is allowed. Grounds for not qualifying include:

- inexperience
- failure to follow directions
- contributing to an accident
- dangerous action
- law violation

**What is the electronic title and registration program?**

The electronic title and registration program allows dealers, financial institutions, fleets and other approved businesses as DMV agents, to complete title and registration transactions for themselves or their customers electronically. The funds for the registration and title are also submitted electronically. The electronic data updates the DMV data base directly and eliminates the need for DMV to re-key the application. The paper applications and source documents continue to be submitted to DMV separately for audit and microfilming purposes.

**How does the program work?**

DMV has contracted with two vendors to act as a gateway between our computer and the agents. Dealers, financial institutions and fleet owners use the electronic program to complete transactions for their vehicle sale, loan or fleet customers. Police departments participating in the program complete both title and registration renewal applications for walk-in customers. Some agents, such as grocery stores, process only registration renewal transactions for most auto, small trucks and motorcycle license plates. The vendor is paid out of the electronic filing fee, \$17.50, collected from the vehicle owner. The service is voluntary; only those customers who want on-the-spot service will use the system. Agents issue regular auto and truck plates and stickers to the customer. Titles continue to print centrally at DMV. Agents offering registration renewal services print the updated Certificate of Registration for the customer.

**What are the benefits of the program?**

- Customers get faster and more convenient service. This is especially important to people who plan out of state trips shortly after buying the vehicle or those who live near the state border.
- Agents are able to transmit information electronically instead of mailing or hand delivering it to DMV. They offer a service to their customer and get quick access to important information about a vehicle's history and mileage.
- Law enforcement agencies have more immediate access to changes in vehicle registration and fewer temporary plates are necessary.
- DMV gets updates to the database without rekeying the data, streamlining the process. And electronic filing helps keep lines shorter at Customer Service Centers.

**Could the program be expanded to other businesses?**

DMV will continue to explore business partnerships with other customers.

## 52 Employer Notification Program

---

### **What is the Employer Notification Program?**

The Employer Notification Program provides employers with current information regarding the driving record of their employees who operate commercial motor vehicles.

A copy of the employee's driver record abstract is mailed to the employer whenever an accident conviction, suspension, revocation, cancellation, disqualification, or out of service order is recorded. In 1999, 24,607 driver record abstracts were mailed under this program.

### **Who can belong to the Employer Notification Program?**

Any employer who owns or leases commercial motor vehicles or assigns a person to drive a commercial motor vehicle can belong to this program. Employers of non-commercial drivers are not eligible.

In 1999, 1,281 employers were involved in the program, covering a total of 65,630 commercial motor vehicle drivers.

### **What does it cost?**

The annual fee is \$20 plus \$2 for each employee enrolled in the program. In addition, the employer is billed \$3 for each abstract that is generated. An employer can withdraw employees from the program at any time without incurring a fee.

### **For more information contact:**

**What is a habitual traffic offender?**

Persons who accumulate four major traffic convictions, (including those from other jurisdictions) or a combination of 12 minor and major convictions, in a five-year period are identified as habitual traffic offenders. Major offenses include:

- operating while under the influence
- eluding an officer
- reckless driving

**What happens to those identified as habitual traffic offenders?**

The operating privilege of habitual traffic offenders is revoked for five years.

**Who orders the revocation?**

Under the present law, the DMV administratively revokes the driver’s privilege.

**What licenses are revoked?**

The revocation is of the operating privilege which means all licenses issued by the division. For an unlicensed person, the ability to obtain a license is revoked.

**Is any type of license available before the expiration of the five-year revocation?**

After a two-year waiting period, a person may, under certain conditions, obtain an occupational license. The two year period is counted from the date of the revocation order.

**For more information contact:**

 Anna Biermeier  
 (608) 266-9901  
 cnr.dmv@dot.state.wi.us

Source: Bureau of Driver Services, Report #P7011924-2

In August, 1998, the department implemented a portion of Act 84, Laws of 1997. The law change made Operating After Revocation (OAR) and Operating While Suspended (OWS) a ‘minor’ rather than a ‘major’ violation for calculating Habitual Traffic Offender (HTO) status. The result has been a significant drop in HTO’s.

## 54 Heavy Vehicle Registration & Titling

---

**What is heavy vehicle registration and titling?**

This is the titling and registration of non-autos: trucks, tractors, buses, motor homes and trailers, except for those vehicles apportioned under the International Registration Plan (IRP).

**What type of registration is issued?**

A wide variety of license plates and registration stickers for vehicles ranging from pick-up truck licenses (ATK), trucks, truck tractors, semitrailers, farm and heavy farm trucks, trailers of all types (from camping trailers to semi-trailers), buses, including school buses, motor homes, dual purpose vehicles and specialty vehicle licenses (X, UX, and Z plates).

**Where can I apply for registration?**

Applications may be mailed directly to the Madison central office. Heavy vehicle registration services are available at the La Crosse, Milwaukee, and Madison DMV Service Centers.

**Do I have to register for the whole year if I only use my truck for a few months?**

No, registration is available on a quarterly basis (January-March, April-June, July-September, October-December) for vehicles registered with a gross weight over 8,000 pounds. (Vehicles with special plates are not eligible). An extra fee of \$5 is charged per quarter of registration.

**What if I only operate in June, July and August? Do I have to pay for two complete quarters?**

No, consecutive monthly registration is also available (with a minimum registration period of three months) for registration of a number of special-use vehicles. The fee is 1/12 the annual fee times the number of months of registration, plus a fee of \$15 per vehicle.

**Who is eligible for consecutive monthly registration?**

Any of the following vehicles may be registered on a consecutive monthly registration basis:

- a motor truck or a trailer or a truck tractor used exclusively to transport concrete pipe or block and related materials, recycled metal salvage materials, logs or pulpwood, dirt, fill or aggregates or fresh milk, or to transport perishable fresh fruits or vegetables for canning, freezing, dehydrating or storage prior to processing, including return of waste, or to transport petroleum products
- a motor truck or a trailer or a truck tractor equipped with a dump, box or other container used exclusively to transport gravel, concrete or cement and bituminous road construction materials or agricultural lime, feed, grain or fertilizer, or equipped with a mechanical mixer used exclusively to mix and deliver concrete
- motor truck or truck tractor which is owned or leased by a retail lumberyard used exclusively to transport building construction materials from that lumberyard to a building construction site
- any motor vehicle used exclusively for towing operations of stalled or disabled vehicles

**How can I operate my vehicle immediately?**

Telephone Authorization is available for a fee of \$7.50 by calling 1-800-422-6771. This allows for immediate operation for vehicles registered quarterly or consecutive monthly. See section on "Telephone Authorization" for information.

**Does a school bus need to be inspected before I can register it?**

Yes, prior to issuing an original title for a new school bus, or a Wisconsin title for a used school bus purchased out-of-state, the bus must be inspected by the Wisconsin State Patrol. Contact the local State Patrol District Headquarters nearest you for inspection information. There is a \$5 fee for five-year school bus plates.

**Do I need different registration if I want to use my bus for charter operations?**

To use a school bus for a charter operation, you need to register as a charter bus and pay regular gross weight registration fees. Quarterly or annual charter registration is available as well as 72-hour trip permits for intrastate operation.

**Can I drive my farm truck to my non-farm job?**

No. Trucks licensed as farm trucks may not be used for any non-farm occupation, trade or employment. You need to license your truck as a dual-purpose farm vehicle. You may use a farm truck for personal or family purposes but not for commuting to another job. A heavy farm truck (registered at 38,000 lbs. or more) may not be used for personal or family purposes.

**For more information contact:**

Bureau of Vehicle Services  
Title and Registration Processing Section  
Vehicle Registration & Titling Unit  
(608) 264-8735

**What is “heavy vehicle use tax”?**

Heavy Vehicle Use Tax (HVUT) is an annual tax assessed by the Federal Internal Revenue Service (IRS) on vehicles operating on public highways at a gross weight of 55,000 lbs. and greater.

Although the tax has been in effect since 1954, the federal government held the states responsible for enforcement beginning in October 1985. The federal government distributes revenues back to states for highway construction and maintenance.

**What is proof of compliance?**

A carrier must send proof of HVUT compliance to the DMV with their registration renewal. For vehicles registered annual (IRP and Intrastate), send proof in with your annual renewal. For Intrastate vehicles registered quarterly or consecutive monthly, send proof in with your first registration during a calendar year. Do not send proof of HVUT compliance separate from your IRP or Intrastate registration renewal. Proof of compliance may be either:

- a copy of a receipted Schedule 1 from IRS form 2290, or
- a copy of a completed 2290, Schedule 1 and both sides of the canceled check

**Are there any exemptions from HVUT?**

Yes. Some exemptions are:

- vehicles which travel fewer than 5,000 miles annually or agricultural vehicles which travel fewer than 7,500 miles annually. Carriers must file Schedule 1 with the IRS and send a receipted copy to the DMV
- mobile cranes and well-drilling vehicles when the carrier files a signed statement with the DMV which lists the vehicle identification number, vehicle type and tax year
- vehicles registered at 56,000 lbs. but actually operating between 54,001 and 54,999 lbs. when a signed statement is filed with the DMV

**When are tax forms filed?**

However, even if exempted, the carrier may be required to file with the IRS or notify the DMV of exempt status.

A carrier must file tax forms with the IRS by the end of the month following the month the vehicles first operated on public highways.

**Who is required to have an Instruction Permit?**

Anyone learning to drive an automobile, motorcycle or Commercial Motor Vehicle (CMV) must first obtain an Instruction Permit.

**What is required for a permit?**

An applicant must pass the appropriate knowledge exam and a highway sign test. To apply for an automobile instruction permit, a person must:

- be at least 15 years and 6 months old
- be enrolled in a certified driver education program
- provide proof of name and date of birth, such as a certified birth certificate, a passport or naturalization papers as acceptable proof of identity (usually a document with name and signature or photo) when applying for the first permit
- have the signature of a parent, step-parent, or other adult sponsor, or file financial responsibility under certain conditions if under 18

To apply for an instruction permit to learn to operate a CMV, a person must be 18 years of age or older and hold a valid Class “D” (automobile/small truck) driver license.

**Where are permits issued?**

DMV issues permits at Service Centers located throughout the state.

**What is the cost?**

The fee for an instruction permit is \$20, and motor cycle permits are \$22.

**How long is the permit valid?  
Can it be renewed?**

The permit is good for 6 months and can be renewed. Each renewal costs \$20 and \$22 respectively. A minor must show proof of completing a certified driver education course or continuing enrollment in such a course to renew the permit.

**What restrictions apply to persons operating a commercial vehicle?**

Persons operating a CMV with an instruction permit must be accompanied by a licensed driver with the appropriate class of license and endorsements.

**What is the International Registration Plan?**

The International Registration Plan (IRP) is a vehicle registration system which registers motor carriers with all jurisdictions they operate in by filing one application with their 'base' or home state. Registration fees are calculated on the percentage of miles a carrier travels in each jurisdiction. The base jurisdiction collects the fees for all jurisdictions where the carrier operates and forwards the fees to those jurisdictions. The carrier is issued one license plate and cab card for each vehicle. The cab card lists all jurisdictions with which the vehicle is registered. IRP registration is valid for both interstate and intrastate operations.

**How many states participate in IRP?**

By January 2003, there will be 58 member states and Canadian provinces (Wisconsin joined the IRP in 1978).

**Who must register with IRP?**

Interstate carriers who are residents of an IRP state, or who have an established place of business in an IRP state are required to register with IRP. At the carrier's option, trip permits may be purchased in lieu of IRP registration.

**What vehicles must be registered?**

The types of vehicles that register with IRP are:

- vehicles operating or registered over 26,000 lbs.
- vehicles with three or more axles, regardless of weight
- combination vehicles with a combined weight over 26,000 lbs.

**Are any vehicles exempt?**

Vehicles with restricted plates such as farm vehicles, city pickup and delivery vehicles, government-owned vehicles, recreational vehicles, and charter buses may be exempt from IRP registration.

**For more information contact:**

Bureau of Vehicle Services  
Motor Carrier Services Section  
IRP Unit  
Thom Rabaglia  
(608) 2676753

Source: Motor Carrier Registration IRP Unit.

Due to the migration to staggered registration, FY99 IRP was reduced by about 25%.

## 62 Involuntary Transfer

---

**What is an involuntary transfer?**

An involuntary transfer of a motor vehicle is a transfer of ownership as a result of legal action or of something other than a voluntary transaction. These applications are complex and generally not handled in Motor Vehicle Service Centers. DMV reviews legal opinions and court decisions to process involuntary transfers.

**Who would use this service?**

Anyone with an application that would fall under one of the categories described below may wish to use this service:

- glider kits – incomplete units of semi-tractors which are purchased and assembled into a complete unit (e.g., a cab, or cab axle) which contain bills of sale rather than the title and Certificate of Origin
- no trace of ownership – an applicant seeking to register a vehicle without a certificate of title; the applicant must provide some proof of the background of the vehicle
- liens – towing and storage liens, mechanics and storage liens, self service storage facilities lien and landlord liens

**Is there an extra charge for this service?**

There is no charge other than the normal title fee, sales tax, registration fee and possibly a counter service fee.

**For more information contact:**

Bureau of Vehicle Services  
Research and Information Unit  
(608) 266-1466  
[bur-veh-services.dmv@dot.state.wi.us](mailto:bur-veh-services.dmv@dot.state.wi.us)

**Why are license plates required?**

License plates are evidence that registration fees have been paid and are a means of readily identifying a vehicle and tracing ownership.

**How many types of Wisconsin license plates are there?**

There are 73 plate designs in 25 color combinations with 147 stickers and decals. The plate issued depends on the design and use of the vehicle or the owner's special interest. Examples of plate types are:

Automobile	Disabled
Truck	Tractor
Collector	Semi-trailer

Most plate types are issued in sets of two for front and rear vehicle display.

**Can auto plates be placed on a van?**

Yes, if seating capacity of the van is greater than 50% of the total space available, you may license it as an auto. If cargo space comprises more than 50% of available floor space, you must register it as a truck at the appropriate gross weight. If the vehicle has a separate, open cargo box, it must be registered as a truck.

**How long are plates valid?**

The length of the registration period depends on the type of license plate. There are 8 valid registration periods: annual, quarterly, monthly, 2 year, 5 year, 6 year, 12 year and non-expiring. More detail on license plate types and registration periods is available in the *Wisconsin License Plate and Motor Carrier Credentials Guide*, published annually. For information on truck and bus registration, see "Heavy Vehicle Registration & Titling."

**When will I get new license plates?**

Auto and light truck plates issued from 1987 through June 2000 will be replaced over the five year period of July 2000 - June, 2005, with oldest plates first. Special plate types will also be replaced during this period, but a start date has not yet been set. Plates for motorcycles and heavy vehicles are not scheduled for replacement. Individuals may replace their plates (same plate design) for a fee of \$2 for regular plates and \$5/6 for some special plates. Plate holders are responsible for replacing plates that are no longer readable.

**When are renewal stickers issued?**

DMV issues stickers upon renewal to show the date of vehicle registration expiration when new plates are not issued.

**How do I apply to renew my license plates?**

DMV mails renewal notices about one month prior to the expiration of the current registration. If you haven't received a renewal notice, send the renewal fee along with a letter or other document, such as a certificate of registration which gives the license plate number to be renewed.

**How long does it take to issue plates and stickers?**

Renewal applications are generally processed in about 10 days. Applications for registration are processed immediately for an additional \$3 counter service fee at those DMV Service Centers offering vehicle registration service.

## 64 License Plates & Renewal Stickers

---

If your renewal notice says that you can renew registration by phone, you may call (800) 236-7368 from a touch-tone phone and charge your renewal to your VISA, MasterCard, or Discover card.

There is a \$2.50 handling fee, and you'll receive your plates or stickers in a week or less. Renewal is also available via the Internet at <http://www.dot.state.wi.us>.

Source: System Issue Reports

**Who is required to file medical reports?**

DMV evaluates whether each applicant for a license can exercise reasonable control over a vehicle. To carry out this responsibility, the DMV conducts written exams, road tests, sign identification tests, and vision screenings. Some persons have medical conditions or disabilities which the DMV cannot adequately assess using these tests. These individuals are required to submit medical information to aid the Division in making licensing decisions.

**How are medical reports reviewed?**

DMV staff review the medical reports. They focus on:

- whether the person's condition is stable
- the degree of impairment from the condition
- the physician's recommendation regarding driving

Physicians and vision specialists throughout the state review more complex cases.

**How often do drivers have to file reports?**

Many drivers only require one medical report. Some people with recurring or progressive medical conditions file medical reports periodically to maintain a valid license.

**What are the results of medical reviews?**

Of the 32,700 medical reports reviewed, 3,600 resulted in cancellations of the driving privilege. Many people are required to pass a written test on driving laws and/or an on-the-road driving test to maintain their license. Over 1,500 drivers voluntarily surrendered their license when asked for a medical report or a driving test.

DMV attempts to allow each person to drive under conditions which are safe for them. For example, some drivers will be restricted to an area within 15 miles of their home if they can demonstrate good driving skills in that limited area. Physicians often recommend restrictions such as daytime driving only, no driving on freeways, or driving with an automatic transmission. Through the use of restrictions, driving tests and medical reports the DMV ensures that people with conditions limiting their functional ability are able to maintain a safe level of driving.

**How can a person appeal a medical review decision?**

DMV provides medical review boards for persons who wish to appeal a license denial. Any person can request an in-person or by-mail review of his/her case by a panel of three physicians.

rlis.dmv@dot.state.wi.us

**Who is subject to audit by the Department?**

Motor carriers licensing their vehicles under the International Registration Plan (IRP), International Fuel Tax Agreement (IFTA).

**What is the purpose of audits?**

Records are examined to verify the miles and fuel use reported. Billings or refunds are issued when acceptably maintained records indicate additional payments or refunds are due. Other IRP and IFTA jurisdictions are informed of audit findings just as Wisconsin is informed of audits done by the other IRP and IFTA jurisdictions.

**How are motor carriers selected for audit?**

Audits are picked on a random selection basis and also selected by information received from other sources which may indicate an audit is necessary.

**What records are required?**

Individual vehicle distance records and their supporting documents (drivers' daily logs, bills of lading, fuel receipts, etc.) must be maintained to support the miles listed on the motor carrier's application. Records are to be retained for 5 1/2 years.

**How is the audit conducted?**

Upon notification of the department's intent to audit, motor carriers may either submit their records to the department or be contacted at their place of business during regular working hours. Firms may be audited every year. The IFTA and the IRP require the base jurisdictions to audit 15% of the registered carriers every five years.

**How is the state fuel tax collected?**

Fuel tax is collected at the pump (retail sales), through payments made to the Wisconsin Department of Revenue as bulk fuel is used, or when the motor carrier files quarterly fuel tax reports with the Department of Transportation.

**How much fuel must be purchased?**

A carrier must pay tax on the number of gallons used on Wisconsin highways. For example, if a motor carrier used 1000 gallons of fuel on Wisconsin highways, 1000 tax-paid gallons must be purchased or funds equal to the amount of tax on 1000 gallons remitted to the State of Wisconsin.

**What if fuel is over purchased?**

If the carrier buys more fuel than is required to cover Wisconsin usage, a refund may be obtained on the taxes paid for the excess fuel.

**Where are tax reports filed?**

Wisconsin-based motor carriers file quarterly or annual reports with the Motor Carrier Services Section, Fuel Tax Unit. Annual reports may be filed by Wisconsin residents operating less than 5,000 total miles in IFTA jurisdictions.

**Why was interstate fuel tax report filing transferred to DOT?**

The program was moved from the Department of Revenue to DOT in 1987 to promote a “one-stop” concept of service to motor carriers. “One-stop” allows carriers to file all required reports and obtain all necessary credentials in one office.

**What is a “base state” fuel tax program?**

A “base state” agreement allows a carrier to file reports, pay fees, and obtain credentials through its base/home state. The base state forwards all fuel use data and tax owed to other states in the agreement. There are 58 jurisdictions that are members of IFTA.

## 70 Motor Carrier Insurance

---

**Which motor carriers are required to file proof of insurance?**

All carriers of passengers or property for-hire rental companies, owners of all buses, human service vehicles, driver education vehicles, and dealer demo vehicles (demonstrated with a load) are required to file proof of insurance before operating in Wisconsin.

**Do I need to carry insurance and pay use taxes if I only operate intrastate?**

Yes. If you are a “for-hire” carrier, you need to carry insurance and pay the heavy vehicle use tax (HVUT) on vehicles operating at a gross weight of 55,000 lbs. even if you only operate in Wisconsin. See section on “Heavy Vehicle Use Tax.”

**Are there minimum insurance limits required?**

Wisconsin’s insurance minimums are established by the federal government. They are:

- combined single limit of \$300,000 for vehicles of 10,000 lbs. or less transporting non-hazardous substances
- combined single limit of \$750,000 for vehicles over 10,000 lbs. transporting non-hazardous substances
- combined single limit of \$1,000,000 to \$5,000,000 for vehicles transporting hazardous substances (the required amount depends upon the type of substances carried)

**Why is insurance required?**

Insurance is required to promote public safety and ensure fiscal responsibility of high-liability operations.

**How is proof of insurance filed?**

An authorized representative of the motor carrier’s insurance company must file evidence stating they have met all insurance requirements:

- For ICC-regulated carriers Form BMC91 or BMC91X must be filed with their base state
- For ICC-exempt carriers Form E or EX must be filed before operating in Wisconsin
- For Intrastate-only carriers Form E, EX or S-1 may be filed

**What are the penalties for operating without filing insurance?**

Carriers who operate without filing proof of insurance may be subject to enforcement action and cancellation of vehicle registration and permits.

## 72 Motor Carrier Single State Registration System

---

**What is the Single State Registration System (SSRS)?**

The SSRS is a program in which for-hire carriers of passengers or property file their ICC authority and proof of insurance with the base state in which the carrier has its principal place of business.

All fees required for all states into which the carrier operates are paid only to the base state, which then transmits the fees to the other states. The registration period runs from January 1 through December 31.

Carriers located in states not participating in the program and those carriers from Canadian provinces are required to register with the participating state where the greatest number of vehicles will operate in the upcoming year.

**How many states participate?**

As of December 31, 1999, there are 39 states participating in the SSRS.

**What credential will the carrier receive to indicate compliance with the SSRS program?**

The base state will issue a single receipt indicating the states in which the carrier may operate. The carrier is then required to make a copy for each vehicle for which fees have been paid. The copy of the receipt must be carried in each vehicle and the original kept at the carrier's principal place of business. Carriers who operate in a state for which fees haven't been paid are subject to enforcement action.

## 74 Motor Vehicle Salesperson License

### What salespeople are licensed?

Persons selling or approving the retail sales, or leasing or approving consumer leases of motor vehicles and recreational vehicles are required to be licensed by DMV. The salesperson must be employed by a dealer and may be licensed for only one dealer at a time, except in the case of multiple dealerships owned by the same dealer principal. DMV also licenses motor vehicle manufacturer and distributor representatives.

### What are the licensing requirements?

Motor vehicle salespersons must be of good character and must pass a written exam at time of first application. A bond may be required if the applicant's character is questionable or past sales practices are unacceptable.

### What does a license cost?

First-time applicants for a motor vehicle salesperson license must pay a \$5 examination fee in addition to the license fee. Salespersons who do not renew their license for five years must be retested. The annual license fee is \$4. A salesperson's license expires on the same date as the employer's dealer license.

Source: Business Licensing Unit Work Statistics

**What is the definition of a motorcycle?**

A motorcycle is a motor vehicle designed and built to have no more than 3 wheels. It must have its own power source capable of speeds in excess of 30 mph with a 150 pound rider, under ideal road conditions.

**Who needs a Class M – Motorcycle license?**

Anyone who drives a motorcycle must have a Class M motorcycle license or motorcycle instruction permit. (Moped drivers do not have the same licensing requirements. They must have a Class D regular, probationary, or special license restricted to moped use.)

**What are the requirements for a Class M License?**

A person must hold a Wisconsin motorcycle instruction permit or surrender a valid motorcycle license from another state before they may obtain a Class M license. Successful completion of a rider course is required for persons who fall under any one of the following:

- are under 18
- held three previous motorcycle instruction permits
- previously failed two DOT-administered motorcycle skill tests

Rider courses are highly recommended for anyone who wants to ride a motorcycle or who wants to improve their motorcycle riding skills.

**What rider courses are offered?**

There are two motorcycle rider courses; successful completion of either course can be used for point reduction of motorcycle violations. See “Traffic Safety Programs” for more information on point reduction.

The 20-hour *Basic Rider Course* is designed for beginning riders. The course was developed and the instructors are certified by the Motorcycle Safety Foundation and Wisconsin DOT. It is taught off-street, out of traffic, and motorcycles and helmets are provided. The course consists of 9 hours of classroom and 11 hours of on-cycle instruction, including the following: preparing to ride; turning, shifting and braking; street strategies; special situations; increasing riding skills; maintenance, and insurance. The course is offered by most of the vocational colleges in Wisconsin and a few other organizations. A person may get a waiver of the skills test upon successful completion of this course, providing other licensing requirements are met.

The *Experienced Rider Course* is an advanced motorcycle safety course with a minimum of 8 hours of instructions. This is available to persons who have a Class M license.

**How does the Motorcycle Skills Test Waiver Program work?**

Upon successful completion of a basic rider course (on or after January 1, 1992), the motorcycle riding instructor issues each student a signed waiver authorization form. This form is usable only by the person to whom it is issued, and is only usable one time. The form must be presented to a DOT examiner, and when other licensing requirements have been met and the motorcycle skills test is waived, an authorization to operate Class M vehicles will be added to the person’s driver’s license. The Waiver Program sets standards for and administers these waivers.

**How is a Class M license obtained?**

To obtain a motorcycle instruction permit, the applicant must pass the motorcycle knowledge (written) test. Additional tests such as Class D knowledge (written) test, highway signs test, and vision and hearing screening may be required.

The applicant must demonstrate competency in motorcycle operation by passing a DOT-administered motorcycle skills test or providing a waiver showing completion of DOT approved basic rider course.

For the skills test, the applicant must provide a cycle in good working order and wear eye protection and an approved helmet. Skills tests are conducted by appointment at DMV Service Centers located throughout the state.

**What are the fees and period of validity?**

A motorcycle instruction permit is \$22 and is valid for 6 months. The original Class M license is \$12 plus a \$15 fee if a skills test is required. The Class M license is valid for 8 years or whenever the basic license expires and has a \$8 renewal fee.

**Are there special requirements for the operation of motorcycles?**

Eye protection is required for all operators with instruction permits and those operators whose cycle does not have a windshield rising at least 15 inches above the handlebars. Headlights and taillights must remain on at all times while driving on public roadways. Approved helmets must be worn by motorcycle operators under 18 years old, passengers under 18 years old and operators with instruction permits. Permit holders may ride alone during the day. If cycling after dark, the permit holder must be accompanied by a person at least 25 years old with two years licensed driving experience and a Class M motorcycle license.

Includes all types of status except those which expired prior to 12/01/99.

Source: Bureau of Driver Services, Report # YRAGEMC

As of 12/31/99

**SB 45/AB 133 - Budget Bill ACT 9** - Reals FPN's and PFJ's - Applies to forfeitures that are not paid - effective 12/1/99. Increases the skills test fee for Class D and School bus from \$10 to \$15 - effective 12/1/99. Requires DOT to reissue 'auto-look' license plates over a 5-year period, beginning July 1, 2000. Requires DOT to develop an automated Oversize/Overweight Permit Routing and Issuance system, and places a temporary surcharge on oversize/overweight permit fees to fund work effort. Modifies definition of a 'type A' moped to increase eligible engine size to 130 cc's. Dealers may reassign a salvage title, after the first salvage title has been issued for a salvage vehicle. Titling of mobile homes over 45 feet in length is transferred to Department of Commerce effective July 1, 2000. Exempt these vehicles from registration. Mobile homes 45 feet and under are still required to be registered and titled by DMV and are termed 'recreational vehicles.' Some changes which have no impact on DMV were made to the franchise laws governing motor vehicle 'factory stores.' Environmental impact fee, paid as part of the title fee, was increased to \$6. Two minor fee corrections: camping trailer 3,000 pounds and under to be \$15, consistent with fees for mobile homes and camping trailers over 3,000 pounds. Also, Telephone Authorization late fee to be \$10, consistent with vehicle registration late fee. Repeal the Hazardous Material Transportation Registration Program appropriation and statutory language, since the fee structure had been ruled unconstitutional and the program is no longer operating.

**What is an occupational license?**

An occupational license is a restricted license that allows a person to drive:

- to and from work and church
- to court-ordered rehabilitation classes

**Who qualifies for an occupational license?**

A person whose license is suspended or revoked may qualify for an occupational license unless he or she was previously suspended or revoked within the preceding 12 months. A waiting period is usually required. Depending upon the offense, the waiting period can be 15 days to two years, but some offenses allow the person to get an occupational license immediately.

A commercial driver whose license is suspended or revoked for offenses committed in a non-commercial vehicle may get a CDL occupational to drive commercial vehicles. However, a commercial driver who is disqualified from holding a commercial driver license, cannot get a CDL occupational.

**How are they issued?**

A person may apply for an occupational license at their nearest DMV Service Center, excluding DMV Express offices. Individuals revoked as a habitual traffic offender must petition a circuit court in their county of residence. The judge of the court may order DMV to issue an occupational license if the person's livelihood depends on driving.

A \$40 application fee is required for every application, including those that change the restrictions on an occupational license.

**What other requirements apply?**

A driver must prove financial responsibility. This proof can be in the form of an SR22 certificate, bond or cash deposited with the DMV. Commercial drivers can list LC, MC, or IC authority numbers.

**What restrictions apply?**

Occupational licenses restrict a person to driving no more than 12 hours per day/60 hours per week. The approved hours, vehicles, and driving routes are specified on the license, except for emergency services providers and commercial drivers.

**How long is an occupational license valid?**

An occupational license is valid from the date it is issued through the second working day after the last day of the suspension/revocation. If a person violates the restriction on an occupational license, the person may lose occupational privileges and be subject to an additional six-month revocation or suspension.

**Who can be an organ donor?**

Any individual at least 18 years of age.

**How do I advise DMV that I want to be an organ donor?**

Complete an application for a Wisconsin driver license/identification card:

- Mark “yes” to the organ donor question
- Sign and date the reverse side of your driver license or identification card
- Specify all or only specific parts/organs

NOTE: An orange sticker can also be placed on the license to alert medical personnel.

**What if I decide to become a donor after I leave the DMV station?**

Sign and date the reverse side of your driver license/identification card:

- Specify all or only specific parts/organs
- When you renew your driver license/identification card mark “yes” on the application to the organ donor question

**How do I amend the donor statement?**

Apply for a duplicate driver license/identification card:

- Pay \$4.00 (driver license) or \$6.00 (ID card)
- Sign and date the reverse side of the driver license
- Specify all or specific parts/organs

**What if I change my mind about being a donor?**

Cross out the donor statement on the reverse of the driver license/identification card.

**Does DMV keep an organ-donor registry?**

No, the Division of Motor Vehicle records only indicate that the person is a potential donor.

NOTE: Does not include under 18 year olds nor 'non' records.

**When are permits required?**

Permits are required when:

- the load size exceeds statutory limits
- the gross vehicle weight exceeds 80,000 lbs.
- individual axle weights exceed legal limitations

**Are all loads exceeding size or weight limits eligible for a permit?**

Generally only non-divisible loads, those that cannot be broken into smaller loads, are eligible for the permit. There are some exceptions authorized by Wisconsin Statute 348.27.

**How are permits obtained?**

Permits may be obtained:

- at the Motor Carrier Services counter in Madison
- by mail
- by wire service
- or with prior authorization, by phone, or internet

**Are there different types of permits?**

Yes. Carriers who frequently haul oversize or overweight loads can apply for an annual permit. Special annual permits exist, e.g., garbage loads, recyclable scrap, forest products, and others. Carriers who occasionally haul oversize or overweight loads can purchase a single trip permit.

**Do carriers choose their own routes?**

Annual permit holders can choose their own routes. Single trip permits list a specific route which is reviewed by the DMV based on road and bridge width, height, weight and construction limitations. Carriers must stay on the assigned route.

**Are carriers required to have insurance?**

Yes. Carriers must certify that insurance is in effect in the amount required for the size and weight of the vehicle/load being transported.

**What is a personalized license plate?**

A license plate consisting of requested numbers or letters or both, not exceeding 7 positions and not less than 1 position on regular registration plates, and not exceeding 6 positions and not less than 1 position on special group plates.

**What vehicle types are eligible for personalized license plates?**

Personalized license plates are available for the following vehicle types:

- automobiles
- motorcycles (up to 5 characters; not available for special groups)
- motor homes (annual registration only)
- motor trucks:
  - 4,500, 6,000 or 8,000 pound gross weight including dual-purpose farm and dual-purpose motor home
  - 12,000 pound gross weight farm truck

**How are personalized license plates obtained?**

An applicant must complete and return a special application form which includes a section where the personalized message choice(s) is listed.

**What is the cost?**

An annual fee of \$15 is required in addition to the regular registration fees.

**Who is eligible for a photo ID?**

Any Wisconsin resident who does not hold a valid photo license or ID from Wisconsin or other jurisdiction may request a photo ID.

**What must a person provide when applying for a photo ID?**

The applicant must provide:

- proof of his/her name and date of birth through a certified birth certificate, passport, or naturalization papers
- acceptable proof of personal identification (usually a document with a signature or photo)
- his/her social security number

**What does it cost?**

An original or renewal ID costs \$9.00. A duplicate ID costs \$6.00.

**How long is a photo ID valid? Can it be renewed?**

The photo ID is valid for 4 years and can be renewed. A person who holds an ID and obtains a Wisconsin driver's license may retain the ID until it expires.

**Where can I get one?**

DMV issues photo IDs at DMV Service Centers located throughout the state.

**What record does the Department maintain of photo IDs?**

DMV creates or updates a computer record at the time the card is issued or renewed. It retains this record for at least 4 years beyond the expiration date. This information is confidential and not available to the public.

**How many photo IDs are issued annually?**

In 1983, the first year of the program, fewer than 7,500 photo IDs were issued. The number has increased steadily. Over 140,180 were issued in 1999.

As of 12/01/99

### **What are revocations and suspensions?**

Revocations and suspensions are the two most common actions taken to withdraw a driver's operating privilege. Suspension is the more lenient action and means the privilege is put on hold for a given time. Revocation means complete termination of the driving privilege.

### **What conditions lead to a license withdrawal?**

Generally, a conviction on one or more violations of major traffic regulations, crimes, juvenile drinking or alcohol regulations leads to a revocation or suspension. Other conditions are:

- finding of delinquency
- refusal to submit to a chemical test for intoxication
- failure to pay for damages resulting from an automobile accident
- truancy
- failure to pay forfeiture
- failure to pay child or family support
- non-compliance with orders for assessment concerning use of alcohol or drugs

### **Who orders revocations and suspensions?**

Revocations and suspensions for single offenses are ordered by the courts or by the Department of Transportation, depending on the type of violation. Administrative actions of the DMV are taken when the license withdrawal is the result of multiple offenses.

### **How is a person notified of a revocation or suspension?**

In some cases court personnel may advise a person that a revocation/suspension will occur as a result of the court's actions. In all cases, the DMV issues an order of revocation or suspension and mails it by first class mail to the person's last known address.

### **How long does a revocation run?**

Periods of revocation can run from a one day minimum to a 20-year maximum for unsatisfied judgments.

### **How long does a suspension run?**

Periods of suspension can run from a one day minimum to "indefinite" periods. These periods are strictly governed by the statute under which a suspension is ordered.

## 94 Revocation/Suspension Reinstatement

### How can a person obtain reinstatement?

After the period of suspension expires, a person may either mail the \$50.00 fee to the DMV or go to a DMV Service Center to pay the \$50 fee and DMV will replace the license. If the license has expired, the person must also pay the appropriate renewal fee.

A person whose license was revoked must appear at a DMV Service Center and:

- complete an application
- take any required tests
- provide proof of identity
- pay a \$50 reinstatement fee for a new license

### What other requirements apply?

A person whose driving privilege was revoked must file proof of financial responsibility with the division continuously for three years following the end of the withdrawal period.

Proof of financial responsibility is usually a certificate (SR-22) issued by an insurance company licensed to do business in Wisconsin. The SR-22 must certify that the person has liability insurance in the amounts of at least \$25,000 and \$50,000, for personal injury or death and \$10,000 for property damage. A person can also post a bond or make a cash deposit for these amounts with DMV.

**What is a Safety Responsibility Administrative Hearing?**

The law requires a person who receives a notice of a safety responsibility order of revocation the opportunity for a hearing on the proposed revocation action, s. 344.02, Stats. The person, called the petitioner, must request a hearing in writing prior to his/her revocation date.

**How long has Wisconsin conducted SR Hearings?**

In 1971, the U.S. Supreme Court ruled in *Bell v. Burson* that States must allow a person an opportunity for a hearing prior to suspending (in our case revoking), an uninsured motorist's operating or registration privileges.

**What is the scope of an SR Hearing?**

The scope of an SR Administrative Hearing is limited to whether or not a reasonable possibility of a judgment exists against an uninsured operator involved in an accident for the amount of bond claimed, or for a lesser amount, as a result of the accident.

**Where are the SR Hearings conducted?**

The hearings are conducted at six DMV Service Centers geographically located throughout Wisconsin to minimize the travel distance of the parties attending them. They are also conducted at State Patrol Headquarters, Spooner, WI.

**How are SR Hearings conducted?**

The hearings are formal. Drivers and witnesses are placed under oath and testify on the record. They may be represented by attorneys, bring witnesses, sworn affidavits, pictures or other evidence. Administrative hearing procedures are governed by ch. 227, Stats. The hearing examiner is not bound by statutory rules of evidence. On average, between 800 and 1,000 hearings are conducted each year.

**What is the Safety Responsibility Law?**

The Safety Responsibility Law was enacted in 1945 to protect persons who suffer damages in accidents caused by uninsured motorists. The program provides an incentive for motorists to carry liability insurance or otherwise satisfy accident damages. The law imposes driver licensing and motor vehicle registration sanctions against uninsured motorists who do not pay for the damages they cause.

**Who does the law apply to?**

The law applies to all operators and owners of motor vehicles who are involved in reportable accidents in the State of Wisconsin.

**How are the Safety Responsibility sanctions initiated?**

The Safety Responsibility process is initiated by the receipt of an accident report in the Traffic Accident Section. If all motorists in the accident are insured, no action is taken. When the Traffic Accident Section determines that a motorist is uninsured, others involved in the accident are notified. They can invoke the sanctions of the law for damages or injuries.

**What actions are taken against uninsured motorists?**

If damages or injuries are substantiated, the Traffic Accident Section sends notices of revocation to the operator and registered owners of uninsured vehicles who appear to be at fault in the accident. The notice warns the uninsured motorist that the operator's driving privilege and all registrations of the owner will be revoked unless they do **one** of the following:

- file proof that liability insurance was in effect at the time of the accident
- deposit security in the amount necessary to cover possible judgments arising out of the accident
- submit evidence that the parties involved have settled the damage claims directly
- request a hearing if they feel a judgment in the amount claimed could not be rendered

**How long is the revocation?**

A Safety Responsibility revocation remains in effect until the uninsured motorist complies with one of the Safety Responsibility requirements. The motorist may reinstate revoked privileges if the DMV is not notified of a pending lawsuit within one year of revocation. Reinstatement requires the filing of proof of insurance for three years and payment of a \$50 fee for reinstatement of operating privileges and \$50 for reinstatement of registration privileges.

**1998 Safety Responsibility Program Results\***

THE WISCONSIN SAFETY RESPONSIBILITY LAW requires all motorists involved in reportable accidents to submit evidence to the DMV of their financial ability to pay for damages they caused in the accident. An accident is reportable if there is injury or death, if there is \$200 or more damage to government property (except a government owned vehicle), or if there is \$1,000 or more damage to any one person's property (including government owned vehicles). In 1998, there were 9,633 claims made against 12,133 uninsured drivers and/or owners exceeding \$34 million in damages.

**1997 – Safety Responsibility (SR) Claims by Type of Claim and Amounts**

<b>Claim Type</b>	<b>Total Claims</b>	<b>Total Amount</b>
Fatalities	61	\$1,471,9255
Personal Injuries	1,662	\$6,573,877
Property Damage	560	\$1,541,651
Vehicle Damage	7,350	\$24,864,606
<b>Total</b>	<b>9,633</b>	<b>\$34,452,059</b>

A claim is verification of damages or injuries filed against an uninsured negligent driver and/or vehicle owner resulting from an accident. The claim amount includes estimated court costs.

**1998 – Motorists Subject To SR Law**

12,133	Notices of Revocation were sent to the drivers and owners of 9,313 vehicles in 1998. In many accidents, the drivers and owners were different persons.
4,434	(38%) Responded to the Notice of Revocation by settling the claims prior to revocation.
296	Posted the required security deposit.
<hr/>	
7,699	Drivers and owners failed to comply with the requirements given on the Notice of Revocation and their operating and registration privileges were revoked.
2,611	Revoked motorists complied with the Safety Responsibility requirements after the Revocation Orders were entered.
4,412	Motorists accepted the one year revocation of privileges.
658	Drivers and owners were still under revocation as of May 22, 2000.

Out of 206,563 vehicles involved in reportable accidents in 1998, only 2% were uninsured, failed to pay for the damages, and accepted a one-year revocation of privileges.

\*1998 is the latest year that SR program results are available.

**Who needs a School Bus (S) endorsement?**

Anyone operating a school bus to transport:

- pupils to or from public and private schools (and in some instances vocational, technical and adult education programs)
- pupils to or from curricular or extra-curricular activities
- pupils to or from religious instruction when school is in session
- children with exceptional needs to/from approved educational programs
- handicapped or elderly persons in connection with certain transportation assistance programs

**What are the requirements for a School Bus (S) endorsement?**

Drivers must be 18 years of age and hold a valid Wisconsin driver license. The driver must have vision in both eyes, color perception, normal hearing, and use of both hands and of the foot used to operate the accelerator and brake.

Applicants are not eligible for a school bus endorsement if:

- convicted of a felony or other offense within the previous 5 years, which could impact on job performance as a school bus operator
- convicted of an OWI related offense or certain other traffic convictions within the previous 2 years

**What tests are required?**

Each applicant for a school bus endorsement, regular or renewal, takes:

- the regular written and sign test
- a school bus (written) knowledge test
- a vision and hearing screening
- a driving examination in a school bus

Applicants up to age 70 must file a medical report or valid Federal Medical Card every 2 years and take a skills test at renewal.

Applicants 70 years of age and older must file a medical report yearly and take a skills test every 2 years.

**What are the fees and period of validity?**

The first CDL issued with an S endorsement is \$64 (or a prorated portion of that fee) plus \$15 for the skills test. Addition of the S endorsement to an existing CDL costs \$5, plus \$10 for the skills test. The license period of validity is 8 years or until the expiration of the current license.

## 100 Telephone and Internet Charge Card Renewal

---

**What is charge card renewal?**

Charge card renewal is a registration renewal option available in addition to the traditional mail-in and walk-in methods of renewing. Telephone and Internet charge card renewals are available for many license plate types. If your renewal card has an RRN number on it, you are eligible to use this renewal service.

You need a touch-tone telephone, your registration renewal notice, and a Visa, Mastercard, or Discover card. Call the toll-free number, (800) 236-7368, which is shown on the renewal notice. A computerized voice response unit guides you through the process.

OR

**How do I use this option?**

You can use your Visa, MasterCard, or Discover Card and use the World Wide Web to renew your vehicle's license plate. Our web site address is **[www.dot.state.wi.us](http://www.dot.state.wi.us)**.

**What is the fee?**

\$2.50 per renewal, which is the cost of providing the service.

**Which plate types are eligible?**

Auto, light truck, higher education group, military special group, civilian group (sesquicentennial, endangered resources, university, firefighter, emergency, medical technicians), moped, annual trailer, farm, camping trailer, motorcycle, collector special, Wisconsin National Guard, Ex-Prisoner of War. Also, disabled and disabled veteran when certification is not required.

**What are the benefits?**

Speed and convenience. You will receive your Certificate of Registration, plates, or stickers within a few days. You may legally operate your vehicle immediately upon completing the call or Internet transaction. The service is available 24 hours a day, seven days a week.

The drop in charge card renewals in 1997 was due to the issuance of Sesquicentennial plates, which began December 2, 1996. Sesqui plates were not available with the charge card renewal program. There was apparently a big overlap between the people who wanted to order Sesqui plates and those who normally used the telephone renewal program.

## 102 Telephone Authorization

---

### What is telephone authorization?

Telephone Authorization (TA) is a call-in procedure that allows registrants to operate on Wisconsin highways without displaying evidence of registration. The program meets a registrant's immediate need to place an unregistered or newly-acquired vehicle into service in an emergency. A TA is available ONLY for intra-state operation of motor carriers.

### Who is eligible?

- motor trucks and truck tractors and certain other vehicles registering at gross weights of more than 8,000 lbs., under the quarterly or monthly registration system
- first-time registrations, re-registrations, registration renewals, or transfer of ownership involving registration of a vehicle

### How is it obtained?

The toll-free number in Wisconsin for obtaining a Telephone Authorization is 1-(800) 422-6771. DMV accepts requests between 7:00 a.m. and 4:00 p.m., Monday through Friday, or by recording service during non-business hours. An applicant must provide the department with the following information about the vehicle:

- type, year, make, vehicle identification number
- license plate number or title number
- operating gross weight, and the type (quarterly or consecutive monthly) of registration
- type of operation (private or for-hire) requested

Because all conversations are taped, the DMV cannot authorize a TA on any other phone line.

### What does it cost?

The fee for a TA is \$7.50 per vehicle. If a complete application, with correct fees is received by the DMV before the 15th of the month preceding the expiration of the registration period, the fee will be waived if the DMV fails to return evidence of registration by the beginning of the registration period. There is a late-payment penalty of \$10.

### How long is it valid?

A Telephone Authorization remains valid until the applicant receives permanent registration. Application for permanent registration **must** be made within 72 hours of the TA date. If an applicant does not submit the application, with all appropriate fees, including the TA fee, DMV must suspend the vehicle registration. A \$25 reinstatement fee is assessed for each vehicle suspended.

## 104 Third Party Testing

---

### **What is CDL Third Party Testing?**

State law allows authorized persons other than employees of the department to administer skills tests to applicants for a commercial drivers license.

### **What is a CDL Third Party Tester?**

A private employer, agency, or person authorized by the department to administer the third party testing program.

### **Who is a Third Party Examiner?**

A person who is employed by a third party tester, who is trained and certified by the department to conduct CDL skills tests.

### **What is required of Third Party Testers?**

A company, agency, or person who wishes to be a tester must meet all department requirements for place of business, employ at least one third party examiner, employ one official who is responsible for the organization's third party testing program, conduct at least 12 CDL skills tests annually, and agree to have their program audited/inspected by the department or FHWA, with or without prior notice.

### **Are there special requirements for being a Third Party Examiner?**

Third party examiners must hold a valid certificate issued by the department. They must have a CDL of the class, and endorsed for vehicles representative of the type they intend to test. Examiners must have an exemplary driving record. Examiners must have at least two years of experience driving the class of vehicle they intend to test. Third party examiners must receive the same CDL skills test training as employees of the department and conduct the same skills tests. Third party examiners must conduct at least 12 CDL skill tests annually.

### **What does it cost to be a Third Party Tester?**

A third party tester must pay for training costs and annual application fees of \$100 plus \$25 for each examiner they employ. Third party tester authorization expires each year on December 31st.

### **Do Third Party Testers charge for the tests they conduct?**

Third party testers may charge a fee for the skills tests they conduct, but may not exceed the fee set by the department for third party testers. Any charge for providing the applicant with a vehicle to use for the test may be determined by the third party tester. The third party tester retains all fees collected for administering skills tests.

### **Do Third Party Testers issue the CDL?**

Third party testers may only administer the CDL skills test. The driver must make application for a CDL, take the necessary knowledge tests, pay the license fee, and have the license processed at one of the DMV Service Centers.

### **How many testers and examiners are in the program?**

There are approximately 134 testers who employ approximately 252 examiners in the program. (This includes about 140 examiners who are certified to test school buses).

### **For more information contact:**

Bureau of Field Services  
Terry Ewing  
(608) 266-8684

**What is a traffic safety program?**

The DMV, along with Dodge County Human Services and the Wisconsin Technical College System (WTCS), administers traffic safety courses to assist individuals in modifying their driving behavior. The courses include:

- Traffic Safety School (TSS) course which reviews basic safe driving concepts
- Group Dynamics Traffic Safety School (GD-TSS) course designed for drivers who have been convicted of operating while intoxicated (OWI), and are assessed to be irresponsible drinkers
- Multiple Offender Program (MOP) course for drivers who have been convicted of OWI more than once and are assessed to be irresponsible drinkers
- Basic Rider & Experienced Rider courses (see “Motorcycle License – Class M”)

**Where and when are they offered?**

These interactive courses are offered throughout the state, primarily through the WTCS. Drivers who receive warning letters about their demerit point status are advised of the school locations on the back of the letter. Drivers convicted of OWI and ordered to take GD-TSS or MOP as part of their driver safety plan will be informed of the school or agency to contact by the assessment agency ordering their attendance.

Classes are run daytimes, evenings, and weekends to accommodate most schedules and allow students to complete the classes as soon as possible. In 1998, 3,192 individuals completed the Traffic Safety School; 10,083 the Group Dynamics-Traffic Safety School; and 1,277 the Multiple Offender Program.

Instructors are individuals who have been hired by the WTCS district and are certified by DMV. Instructors are required to have training in driver and safety education, and/or alcohol and other drug treatment education or counseling.

**What rules apply to point reduction?**

Drivers taking the courses may elect to have their demerit points reduced by three after successful completion of the course. Only motorcycle convictions can be reduced by three points upon completion of a *Basic Rider* or *Experienced Rider Course*. Drivers may only have their points reduced once every five years. The student has 30 days from completion of the course to notify the Department of Transportation of any change in his/her request for point reduction.

Drivers whose licenses have been suspended or revoked for demerit points may not use a point reduction course to regain their driving privileges.

**How much do the courses cost?**

Fees for these courses are set by the institutions and they vary.

## 106 Traffic Violation & Registration Program (TV&RP)

### What is the Traffic Violation and Registration Program?

The Traffic Violation and Registration Program (TV&RP) was created by state law in 1981. Under this program, DMV imposes sanctions for unpaid tickets resulting from unpaid non-moving traffic violations (unpaid parking citations).

### How does it work?

A court or local authority participating in the program forwards information regarding the unpaid tickets to the department and requests the DMV to:

- suspend the registration of the vehicle involved
- refuse all registration applications, including renewals, made by the owner of the ticketed vehicle, or
- both of the above

### How are people notified?

The court or local authority must notify defendants that they have unpaid tickets. If the defendant does not contest the ticket or pay the fine, the authority directs the department to take action. The department then notifies the defendant by letter and by notice on vehicle registration renewal forms.

### What happens when tickets are paid?

Once a defendant has paid the forfeiture or appeared in court, the local authority or court notifies the department and vehicle registration privileges are reinstated.

### How is the program funded?

The cost of the program is paid by participating local authorities.

### Number of TVRP participants:

In 1999, 333 counties, cities, villages, towns, courts, or other local agencies participated in the program.

### **Why vehicle emission testing?**

The federal Clean Air Act spells out air quality standards that all areas of the United States must meet. Motor vehicles are one of the major causes of air pollutants in metropolitan areas. Vehicle exhaust emissions include carbon monoxide and hydrocarbons. Vehicle testing assures that in-use vehicle emissions are within specified standards.

### **Why is emission testing required in southeastern Wisconsin?**

Southeastern Wisconsin is one of over 90 metropolitan areas in 35 states with air pollution levels higher than federal health standards. Approximately one-third of the volatile organic compounds (mostly hydrocarbons) and 60% of carbon monoxide present in this area are created by motor vehicles.

The purpose of the Wisconsin Vehicle Inspection Program (VIP) is to identify:

- vehicles that exceed exhaust and evaporative emissions
- prevent registration until vehicles meet emission standards

### **Who sets emission standards?**

The Department of Natural Resources (DNR) sets the emission standards for vehicles. DMV administers the Vehicle Inspection Program.

### **What vehicles require testing?**

Emission tests are required on automobiles and on trucks with a manufactured gross vehicle weight rating of 10,000 pounds or less which are customarily kept in the southeastern Wisconsin counties of Kenosha, Milwaukee, Ozaukee, Sheboygan, Racine, Washington and Waukesha. Exceptions are vehicles manufactured before 1968, diesel-powered vehicles, and motorcycles. Approximately 700,000 tests are performed each year.

### **Who does the testing and what does it cost?**

The DMV contracts with Envirotest Systems Corporation to conduct testing. The DMV audits test equipment at each station weekly to assure accurate testing. The required test is without direct charge to the motorist.

### **When are vehicles tested?**

Vehicles are tested biennially based upon vehicle model year. The testing is required at the time of vehicle registration renewal. Renewal notices indicate if testing is required.

Additionally, vehicles more than 5 model years old are required to be tested at the time of change of ownership. DMV mails a letter outlining the testing requirements to the new owner.

### **Where are vehicles tested?**

There are 12 vehicle inspection test facilities located throughout southeastern Wisconsin with 44 test lanes.

### **How is the test performed?**

When motorists enter the test facility, the lane inspector asks for the registration renewal notice and enters essential information into a computer. The computer automatically selects the proper standards for the vehicle's weight and model year.

The emissions are measured while the vehicle is driven on a treadmill-like device called a dynamometer. The vehicle is operated over a driving cycle at various speeds which resemble typical city driving patterns including acceleration and deceleration. The vehicle's gas cap is also tested to ensure that it seals properly.

After the emission inspection, motorists receive results on a computer-generated report form. This report contains the results of the emissions test and the gas cap inspection.

When vehicles pass both portions of the vehicle inspection, the owner may complete the registration by mail, at the emission test facility, or in person at a DMV Service Center. The computer automatically matches test records from the inspection stations with the DMV's registration records to verify inspection compliance.

**What happens to vehicles which fail?**

If a vehicle fails either portion of the test, the owner must have emission-related repairs performed and/or replace the gas cap prior to being retested. Satisfactory completion of the test requirements is necessary before vehicle registration renewal. The inspector provides all motorists with an informational brochure at the initial failed test to explain the repair and retest process.

**Why are vehicle records sold?**

Wisconsin law requires DMV to make its non-confidential records available to the public, subject to the Federal Drivers Privacy Protection Act of 1994 (DPPA). Statute S.S. 341.17, Trans. 19.31, 19.39, 19.62-19.80 governs Wisconsin's provisions on releasing records. All DPPA restrictions apply.

**Privacy Facts**

**Waiver & Opt-Out:** Wisconsin allows individuals to opt out their name, street address, post office box, and nine-digit zip code whenever a record series containing ten or more names is requested.

**Casual Requesters:** Casual requesters can obtain records with personal information if they fill out Request Form MV2896.

**Retention and Resale by Vendors:** Wisconsin does not provide any restrictions upon the use, storage, or resale of records after a completed transaction beyond those of DPPA.

**Accessing Vehicle Records**

*Department of Transportation, Vehicle Records Section, P.O. Box 7911, Madison 53707-7911, (608) 266-3666.* The DOT maintains the database for vehicle and mobile home titles, registrations, and liens. Boat information is with the Department of Natural Resources.

**Request Methods**

**Mail or Walk-in:** All casual or occasional requesters may submit a Request Form MV2896. The fee for VIN, lien, and registration checks is \$3.00 per record plus \$.25 per paper copy. Requests are available by mail or in person at the address listed above. The fee should accompany the request. Any costs over the fee submitted will be billed. Vehicle information is not available over the phone. Records are available for seven years to present. A completed and signed Request Form MV2896 is required.

**Online:** Wisconsin does not offer online inquiry at this time.

**Database Sales:** The registration file contains all vehicles currently registered in the state at the time the file is produced. The file (5,100,000 records) is available only in its entirety and only on computer tape. The cost is \$2,200.00. Two smaller files are also available. A monthly tape program of all new vehicle registrations is available for \$498 for a six month minimum term. The tapes are non-cumulative, designated for the first through the end of each month. A microfiche output of license plates and owners is available for \$60.00 per year. Contact the Bureau of Vehicle Services (608) 266-2064. All DPPA restrictions apply. Magnetic tape input inquiry for specific records is available only to law enforcement agencies or their agents.
