## Federal Discretionary Grant Opportunities

# How to use this Summary Guide

WisDOT developed this summary guide to provide summary information about the Bipartisan Infrastructure Law (BIL), Inflation Reduction Act (IRA), and Appropriations Act (AA) discretionary grant opportunities. Information will be updated as additional program details are released by U.S. DOT. WisDOT's Summary Guide only lists discretionary grant opportunities that have funding that has been appropriated (either Highway Trust Fund or General Fund) for the remaining years of BIL Fiscal Year (FY) FY2023-FY2026.

Helpful points to keep in mind:

- **Discretionary Grant by Agency:** Grant opportunities are organized alphabetically by the federal agency that will be administering the grant opportunity.
- **Notice of Funding Opportunity (NOFO) Deadline:** The NOFO submission deadline listed shows the NOFO period for Fiscal Year (FY) 2023 and/or 2024, if available. If a NOFO deadline has passed, it will reopen in the following year. Exact dates haven't been released by U.S. DOT, but estimates are provided when available.
- **FY2024 Funds:** Only Fiscal Year (FY) 2024 funds that have been appropriated, have been included in this resource. Future funding appropriations for FY25 and FY26 will be included annually in their respective years. The FY2024 Funds listed for each grant opportunity is what is available nationally through the grant solicitation. [Grants.gov](https://www.grants.gov) provides information on estimated number of grants to be awarded and maximum grant award amounts.
- **Program Description:** A basic description about the program has been included for a quick understanding about the discretionary grant program.
- **Eligible Applicants:** The eligible applicant list is provided. Please review Infrastructure Investment and Jobs Act (IIJA), the grant opportunity's website, and/or the NOFO for detailed eligible applicant information.
- **Additional Links:** WisDOT's efforts to support grant applicants and additional links are provided when available.
- **MPDG:** The Multimodal Project Discretionary Grant common application (MPDG) provides Federal financial assistance to highway and bridge, intercity passenger rail, railway-highway grade and separation, wildlife crossing, public transportation, marine highway, and freight and multimodal projects, or groups of such projects, of national or regional significance, as well as to projects to improve and expand the surface transportation infrastructure in rural areas.
- **FHWA Reimbursement Grants:** The Federal-aid Highway program is a reimbursement program, meaning that costs are reimbursed as costs are incurred. Costs incurred prior to FHWA project authorization are not eligible expenses.
- **Justice40 (J40) Covered Programs:** There are seven areas of Federal investments covered by the [Justice40 Initiative](#).  
\*J40 - Denotes the [U.S. DOT current 40 programs](#), across five modes, totaling \$207 billion in Bipartisan Infrastructure Law authorizations.
