

ATV Route Signing Diagram Examples: Municipality enacts an ordinance designating all roads/streets under its maintenance jurisdiction as ATV routes *and* authorizes the operation of ATVs on a State Trunk Highway under Wis. Stat. s. 23.33(11)(am)4. D11-10 signs *are required* within the 35 MPH zone regardless of whether the municipality decides to use D11-10A signs or not. D11-10A signs are shown for reference in both examples below.

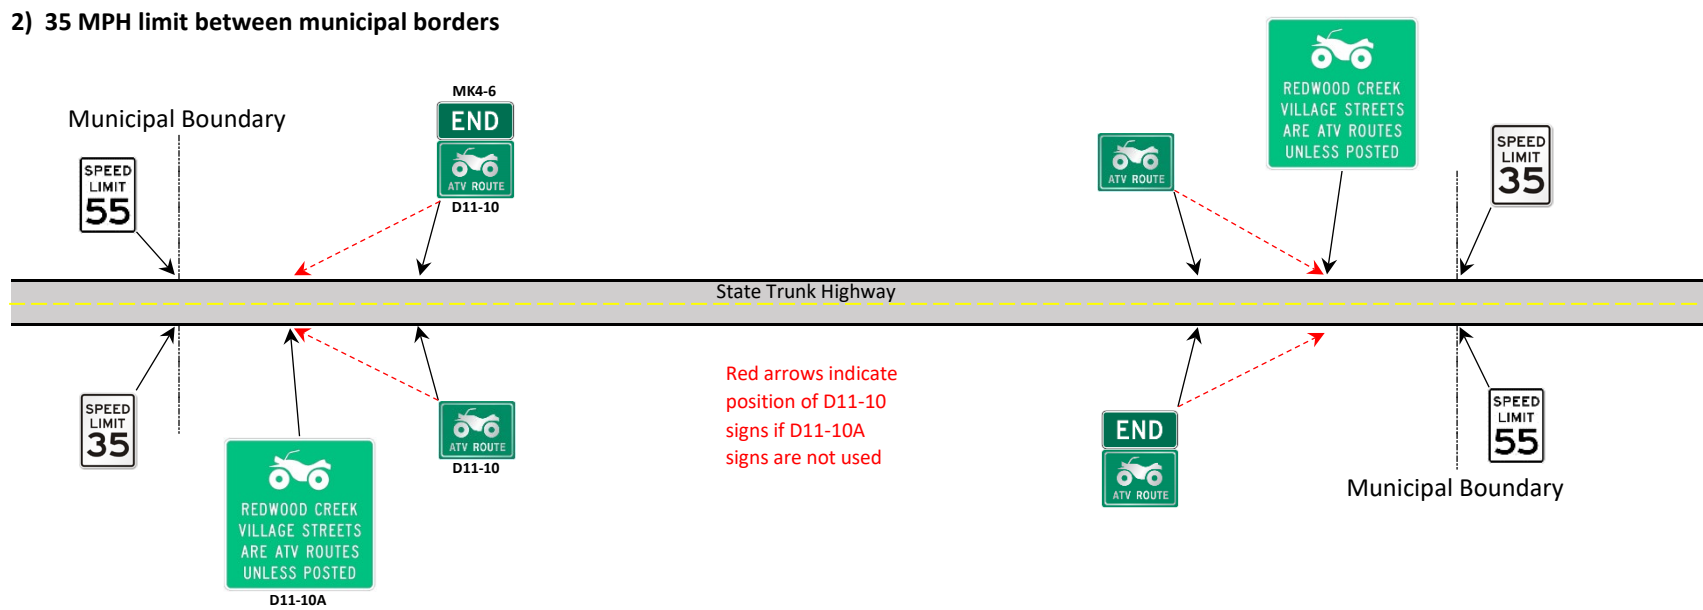

1) 35 MPH limit within municipal borders

Notes:

- Follow all WisMUTCD standards for mounting and spacing signs
- D11-10 and D11-10A signs must be mounted on their own posts
- Actual sign positions will vary based upon location of other signs, driveways, roads/streets, etc.

2) 35 MPH limit between municipal borders

Red arrows indicate position of D11-10 signs if D11-10A signs are not used
