A new lease is required upon renewal time each year. If you add, transfer or change a safety carrier, a new lease is required. The International Registration Plan (IRP) requires Wisconsin to verify that a lease exists between you (the owner operator) and the motor carrier. All IRP applicants applying as an owner operator will be required to submit this information before we can proceed with your application.

Owner-Operator means a person, firm or corporation leasing an apportioned motor vehicle to a motor carrier using their US DOT and/or IFTA. The base jurisdiction shall verify that a lease exists between the owner-operator (lessor) and the motor carrier (lessee).
