

WIS 32 BUMP-OUTS (CURB EXTENSIONS)

NOVEMBER 2023

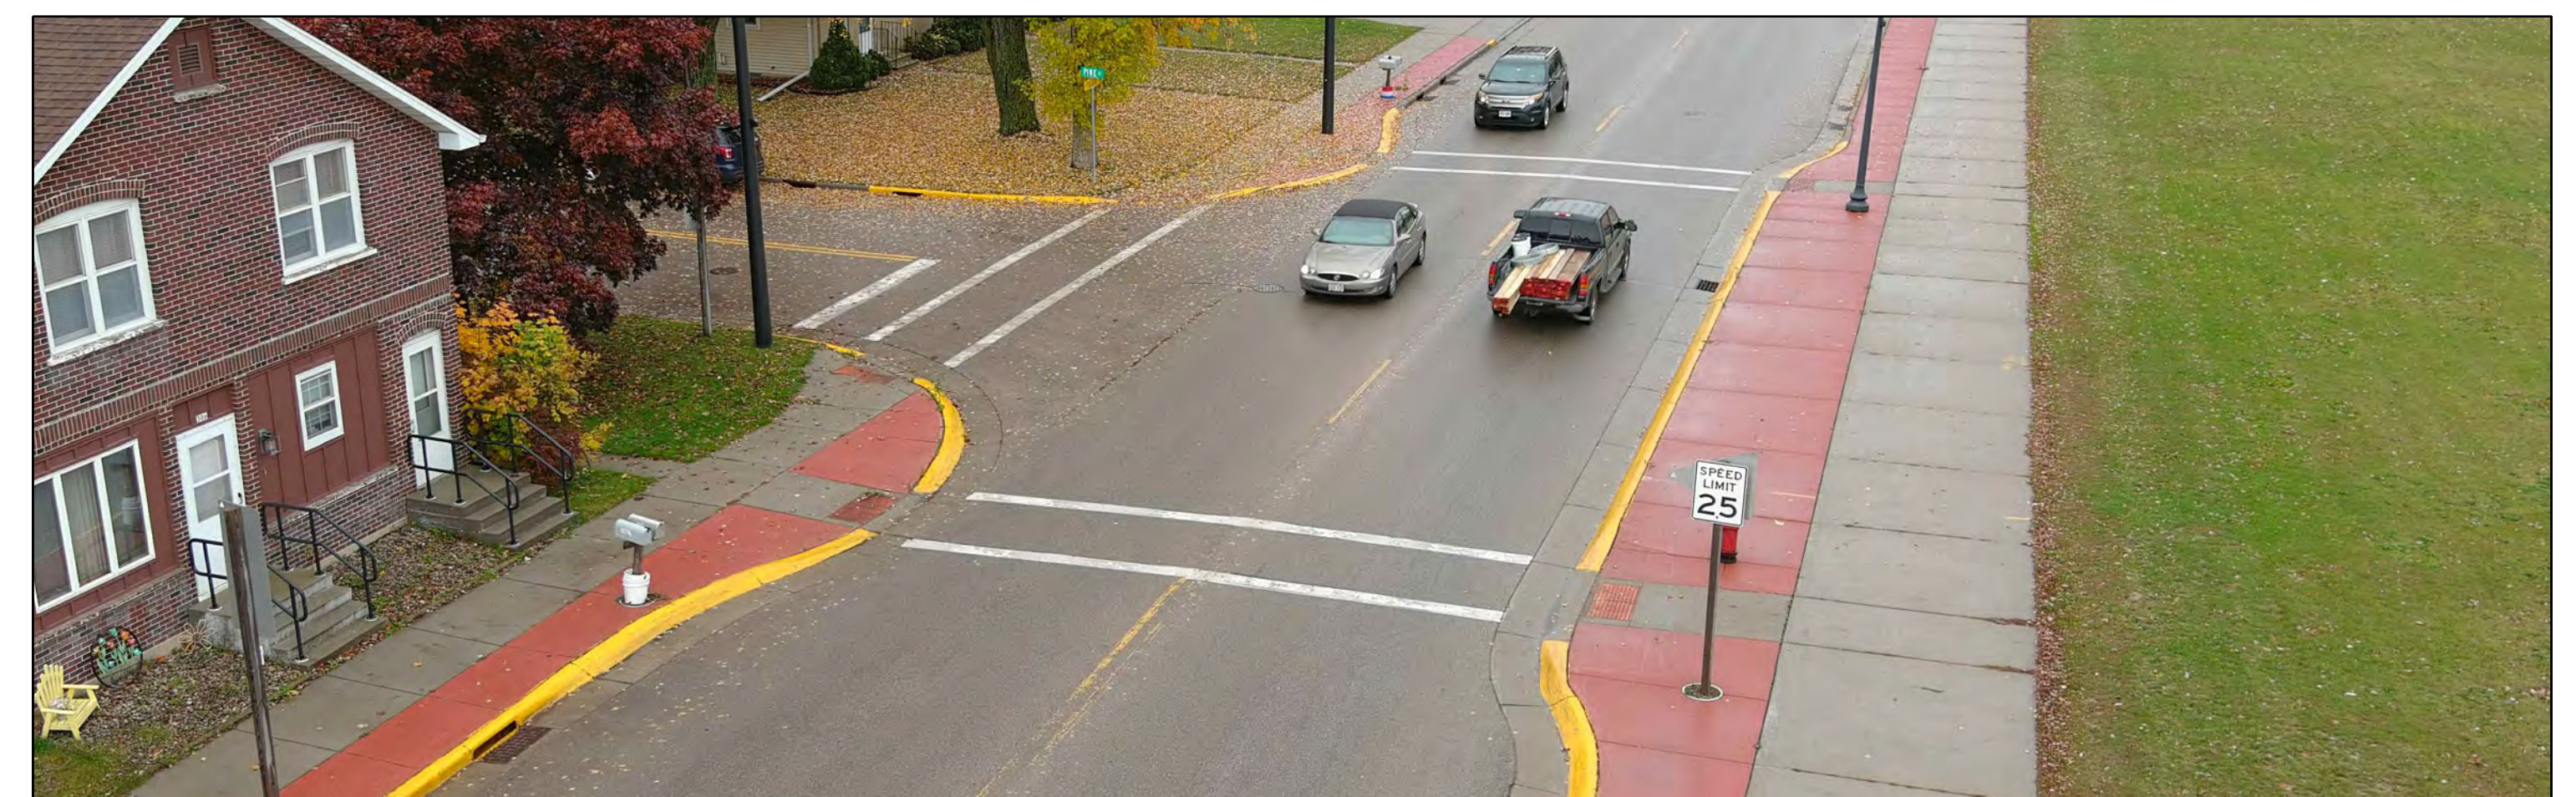

WHY CONSIDER BUMP-OUTS?

- Naturally calms traffic and reduces travel speeds
- Creates more visibility of pedestrians to road traffic
- Provides a shorter distance for pedestrians to cross the roadway
- Creates better sight lines for traffic stopped on the side roads to view oncoming traffic
- Allows curb ramps to be constructed to meet design standards without significant impacts to adjacent properties

Example in De Pere - WIS 57/Broadway, Downtown District

Example in Pulaski - WIS 32/Pulaski Street, Downtown District
