Public Involvement Handout

Fond du Lac – Oshkosh US 45 Fond du Lac County

The Wisconsin Department of Transportation (WisDOT) welcomes you to review this letter for the proposed improvements to US 45 in the village of North Fond du Lac and town of Friendship in Fond du Lac County. WisDOT is planning this work to start in 2024.

Purpose of meeting

The purpose of this letter is to familiarize you with the details of the project and seek your input on the proposed improvements. We encourage you to review the project involvement and the exhibits in this letter.

We want your comments

A public input form is attached to this letter for written comments. We appreciate your input and encourage you take a moment to complete the form and mail it to the address on the bottom of the form. Note that the comment form is also a pre-paid mailer. Please return any comments as soon as possible so that we may consider them in our design.

Project location and limits

This is a resurface level improvement of US 45 between Scott Street and Lone Elm Road. The project is in the village of North Fond du Lac and the town of Friendship.

Fond du Lac County

Project need

The purpose of this highway improvement project along US 45 between Fond du Lac and the north county line is to improve pavement conditions and address deficiencies in the existing corridor.

Proposed improvements

This is a 7.478-mile resurface level improvement of US 45. The project will consist of milling existing pavement and overlaying asphaltic pavement, replacing beam guard and regrading around new beam guard to current standards, and replacing 5 cross culverts under US 45.

Traffic control during construction

Traffic on US 45 at the project location will be maintained during construction. The project will be constructed under rolling lane closure. Access to businesses and residences will be maintained throughout construction. However vehicular access may be limited during specific construction activities, but this will be coordinated between the construction engineer and the business owner or resident.

Right of way needs

Right of way acquisitions are not anticipated as part of this project.

Schedule

The project is anticipated to start construction in summer of 2024 and will be completed in 2024.

Public comments

Attached to this letter is a sheet for your written comments and concerns about the project. Please mail any written comments using the pre-paid mailer.
