

I-41 Zoo Freeway BURLEIGH STREET to SILVER SPRING DRIVE

# Construction Impacts

Freeway construction will bring temporary changes to the project area such as potential traffic delays, detours, and construction noise and dust.

## LONG-TERM LANE CLOSURES

- Traffic will be reduced from three to two lanes along I-41 in the construction zone.
- Traffic will be reduced to one lane only during overnight hours as needed.
- Interchange ramps will be closed as needed. Consecutive ramp closures will be avoided.

## BRIDGE CLOSURES

- 118th Street bridge at Harley Davidson Avenue will be closed for approximately two months.
- Southbound and northbound I-41 mid-level ramp bridges over Capitol Drive will be closed for approximately three months.
- Periodic lane closures will be required at other bridges to perform rehabilitation work.

## PEDESTRIAN AND TRANSIT ACCESS

WisDOT will accommodate pedestrian access during bridge closures to the extent practical and maintain bus stop locations. If any bus stop changes are required, WisDOT will coordinate with Milwaukee County Transit System.
