

Public Involvement

I.D. 3270-01-74
Horicon – Kewaskum
(Ellsworth Street – North Junction County TW)
WIS 28
Dodge County

Public Comment Period: October 15, 2020 to October 30, 2020

In lieu of a face to face meeting, public involvement will be conducted via this project mailer and comment feedback sheet (attached), and the project website listed below.

This handout and other meeting items are available on the design website at:
<https://wisconsindot.gov/Pages/projects/by-region/sw/wis28-horicon/default.aspx>

The Wisconsin Department of Transportation continues to review prioritization and potential alternatives for public meetings and events.

Thank you for your interest in this project, we look forward to your feedback.

Purpose of the meeting

The objective is to obtain your input on the identified needs, proposed improvements, and detour route along 3.46 miles of WIS 28 between Ellsworth Street in Horicon and the North Junction County TW in the Town of Williamstown, Dodge County.

Purpose and need for roadway improvements

The WIS 28 pavement is aged and showing signs of deterioration with alligator, longitudinal and transverse cracking. The project is needed to extend the service life of the pavement.

Below is a map outlining the project area:

Proposed improvements

- Milling the existing asphaltic pavement and overlaying it with 3 ½" of new asphalt.
- Replacing the existing guardrail just southwest of the WIS 28/Schwarze Road intersection
- Installation of rumble strips on WIS 28
- New pavement marking

Prior to this construction project, Dodge County Highway is being provided a Local Force Account (LFA) to conduct in-kind replacement of several culvert pipes one year prior to this project to ensure natural compaction has taken place preventing subsidence of the roadway after the mill and overlay.

Proposed traffic impacts

The project will be closed to through traffic duration construction and a detour route will be posted. The detour route will utilize WIS 33 and WIS 67.

Schedule

The improvement project is currently scheduled for 2025 however it could get advanced to as early as 2023 if funding becomes available. The Local Force Account project with Dodge County for culvert pipe replacements is currently scheduled for 2022.

Access to adjacent properties and for first responders will be maintained during construction. Brief interruptions in access may occur temporarily at driveways. The contractor will be required to notify homeowners and businesses prior to construction.

Real estate

No land acquisitions are expected along the project limits.

Project update/next steps

- Public comment period October 15 – October 30, 2020
- Preliminary plans November 2020
- Final plans February 2022
