

# Traffic Signal Design Manual

ORIGINATOR Director, Bureau of Traffic Operations		3-1-1
CHAPTER 3	Project Scoping Process & Geometric Design Considerations	
SECTION 1	Funding	
SUBJECT 1	General	

Funding of a traffic signal installation typically is provided one of four ways:

- Improvement Program,
- Highway Safety Improvement Program (see PMM 04-01-01),
- Congestion Mitigation & Air Quality (CMAQ) Program (see PMM 02-20-01),
- Permit Projects (TIA process -- non-State funded).

Refer to TEOpS 4-2-20, Emergency Vehicle Preemption for EVP funding guidance.

Contact the Regional Traffic Engineer for appropriate funding mechanisms at specific locations.
