Traffic Signal Design Manual

ORIGINATOR Director, Bureau of Highway Operations		5-4-3
CHAPTER 5	Signal Plan Format	
SECTION 4	Signal Plan Development Process	
SUBJECT 3	Signal Revisions using State Electrical Forces	

The signal revision plan process is located in TSDM 5-3-1 and also covered in the FDM Chapter 3 and Chapter 19. FDM Chapter 19 presents a detailed description of the plan review process, schedule/timing, and plan composition. Typically, plan sets for signal revisions using State Electrical Forces *should* include the following sheets:

1. Signal Plan Sheet
2. Sequence of Operations Sheet

During the construction phase of State Electrical Forces signal revisions, the quantities are determined and supplied at the Regional level. Any questions regarding State Electrical Forces signal projects *should* be directed to the Regional Traffic Unit.
