ADDENDUM NO. 01

6355-00-75

Special Provisions

3. Prosecution and Progress.

Add the following after paragraph one:

Complete the construction and restoration of the steep slope shown from Station 970+00 RT to Station 974+00 RT prior to October 15, 2018. Pursue operations in a timely manner, continuing all construction operations methodically from the initial clearing and grubbing operation through the subsequent grading and restoration to minimize the period of exposure to possible erosion. Work in this area shall begin after an approved Erosion Control Implementation Plan (ECIP) and the notice to proceed is issued. Work shall continue in this area to complete the grading and restoration of the steep bank to allow vegetation to germinate and establish a root system prior to winter.

19. Culvert Pipe Class III 48-Inch, Item 520.3148; Culvert Pipe Class III-A 18-Inch, Item 520.3318; Pipe Arch Corrugated Steel 83x57-Inch, Item 521.3783.

Replace paragraph one with the following:

Cross culvert pipes are required to be installed to invert elevations as shown on the plans. The following locations of cross culvert pipes have invert elevations that are or may be below the normal water elevation: Station 923+25 (83x57-inch pipe arch), Station 941+13 (18" culvert), Station 975+40 (48" culvert). Prepare and submit to the engineer with the ECIP a plan outlining the method of removal and placement of the culvert crossings.

Add the following after paragraph one:

If a temporary bypass is needed for culvert replacement utilize a bypass channel, culvert, or pumping. If a bypass channel is utilized, it should be lined with plastic or other non-erodible material, staked, and weighted down with clean stone. All bypass methods (channel, culvert, or pumping) must carry all stream flows during the construction period and must maintain a similar depth and velocity as the existing condition. The work area for culvert replacements must be isolated with an impermeable barrier (e.g. – sheeting, water bladder, sandbags wrapped in plastic).

34. Stone or Rock Ditch Checks, Item 628.7515.S.

A Description

This special provision describes furnishing and installing stone or rock ditch checks as shown on the plans or as directed by the engineer, or both, and as hereinafter provided.

B Materials

Provide materials conforming to size requirements for size no. 2 coarse aggregate for concrete masonry or riprap in accordance to the standard spec 501.2.5.4.5. Railroad ballast or breaker run stone conforming to the following applicable gradations may also be used:

Railroad Ballast

Sieve Size	Percent by Weight Passing
2 Inch	100
1 Inch	20 – 55
3/8 Inch	0 - 5

Breaker Run Stone	
Sieve Size	Percent by Weight Passing
5 Inch	100
1½ Inch	0 – 50
3/8 Inch	0 - 5

Incorporate stone or rock in the ditch checks that is hard, sound, and durable, and meets the approval of the engineer.

C Construction

Place stone or rock ditch checks immediately after shaping of the ditches or slopes is completed. Place stone or rock ditch checks at right angles to the direction of flow and construct to the dimensions and in accordance to the details shown in the plans.

Remove sediment from behind the stone or rock ditch checks when it has accumulated to one half of the original height of the dam.

D Measurement

The department will measure Stone or Rock Ditch Checks in volume by the cubic yard of material incorporated in the work.

E Payment

The department will pay for measured quantities at the contract unit price under the following bid item:

ITEM NUMBER	DESCRIPTION	UNIT
628.7515.S	Stone or Rock Ditch Checks	CY

Payment is full compensation for furnishing, producing, crushing, loading, hauling, placing, and shaping and maintaining Stone or Rock Ditch Check.

The quantity of sediment removed shall be multiplied by a factor of ten and paid for as Common Excavation.
stp-628-050 (20170615)

Schedule of Items

Attached, dated June 28, 2018, are the revised Schedule of Items Pages 1 – 7.

Plan Sheets

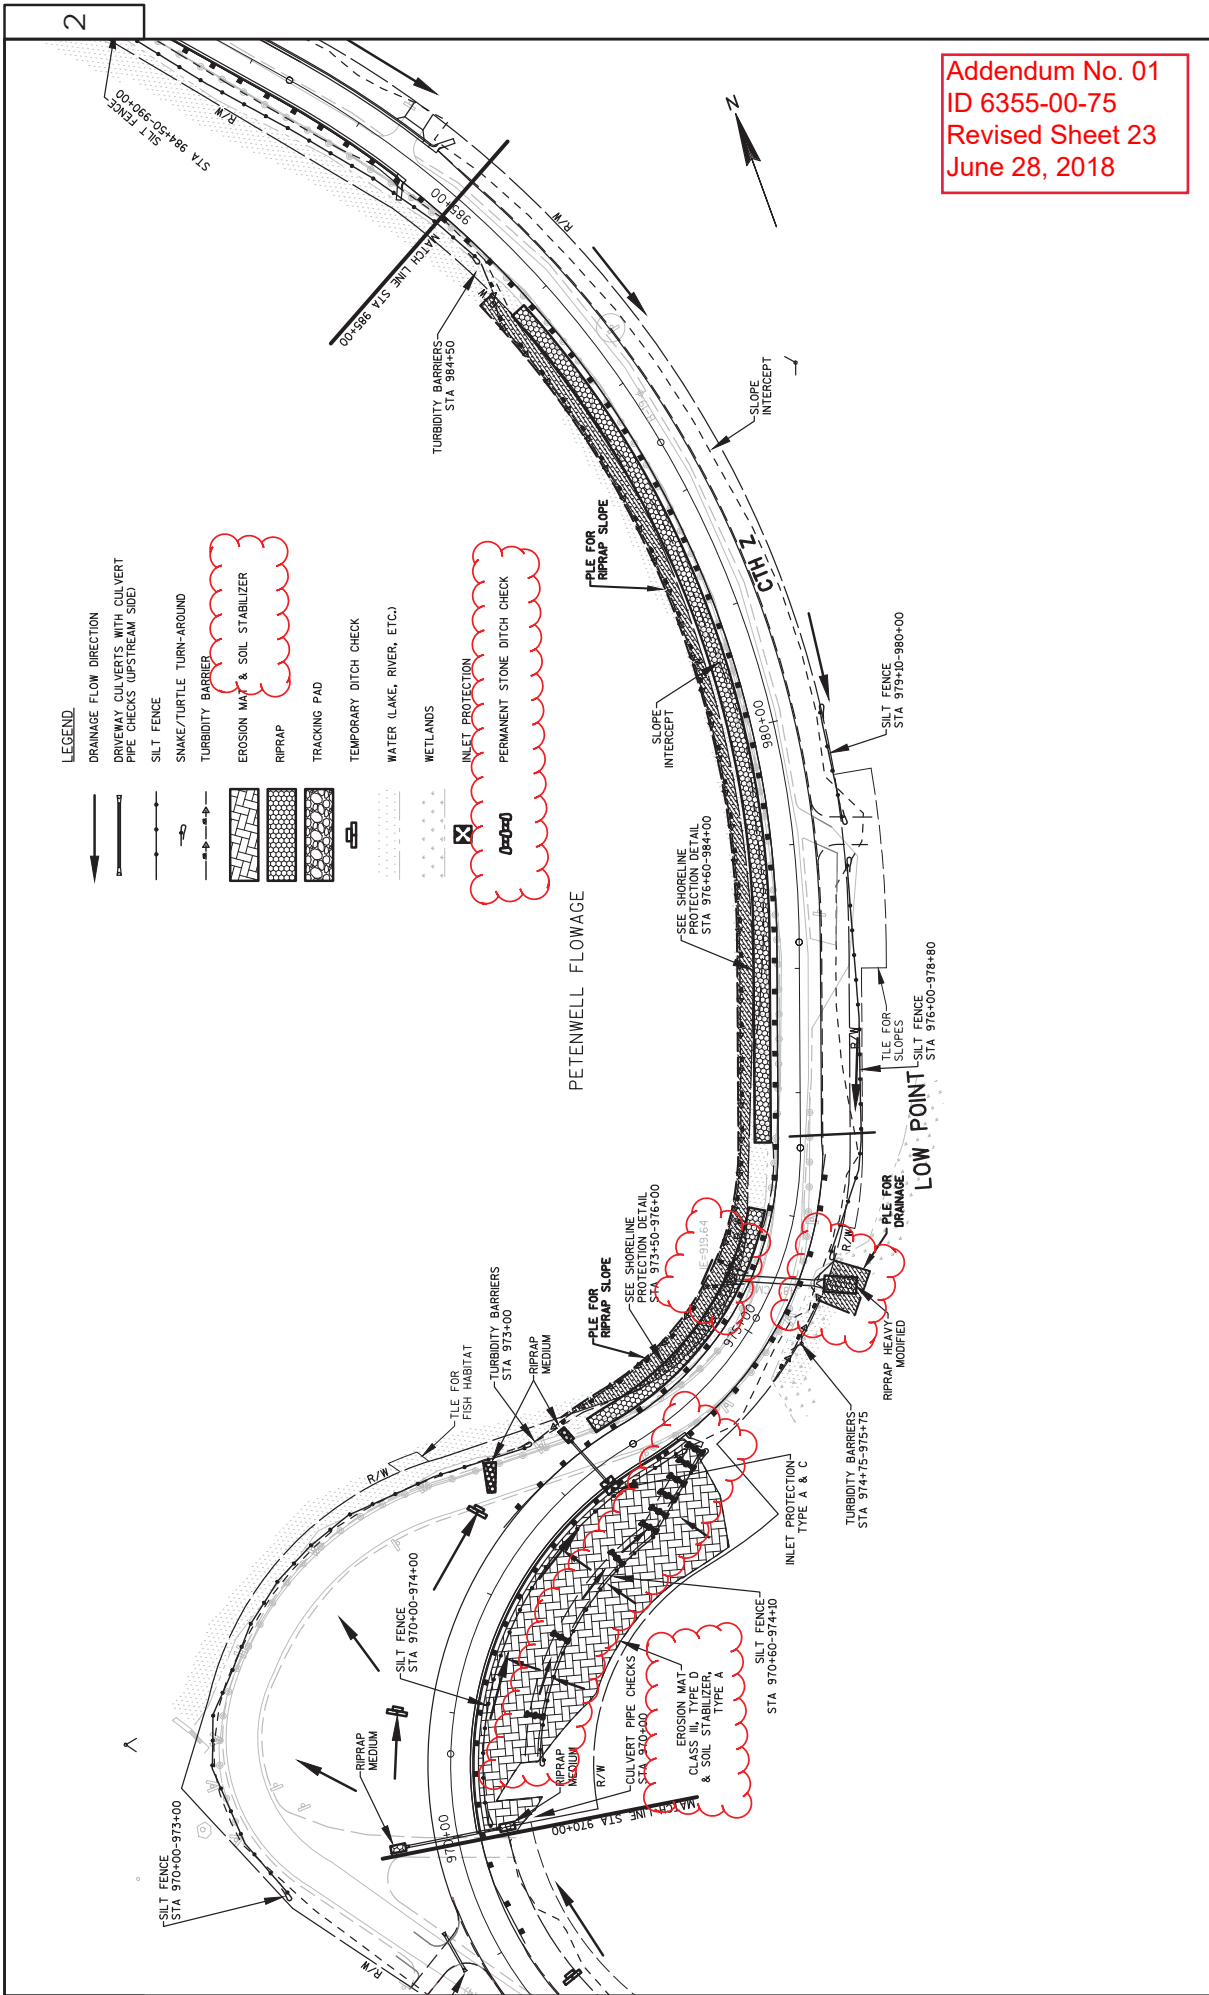

The following 8½ x 11-inch sheets are attached and made part of the plans for this proposal:
Revised Sheets: 23, 46, 48, 49, 72, 281, and 282.
Added Sheet: 12A.
