ADDENDUM NO. 01

8998-00-23

January 9, 2020

Special Provisions

4. Traffic

Replace paragraph four with the following:

Maintain one eastbound left turn lane into Mariner Mall and a westbound left turn lane at Hill Avenue at all times, except during active milling or paving operations when these lanes may be temporarily closed for active work operations. The dedicated left turn lanes may also be closed when N. 28th Street is closed to through traffic.

Traffic through the work zone may be reduced to single lane, one-way operation under flagger control to accommodate active milling and paving operations that modify the construction and traffic staging details included in the plans. Provide an updated construction staging and traffic control plan for the engineer's approval a minimum of five working days prior to commencing milling and paving.

Monitor vehicle delay and traffic queues during flagging operations. Re-open N. 28th Street to two lane, two-way operation if traffic queues extend to the railroad crossing approximately 1,200 feet west of Hill Avenue or to the intersection of E. 5th Street with 18th Avenue E. Re-open N. 28th Street to two-way, two-lane operation at the conclusion of work each day. Set traffic control devices per the plan staging details, or as modified and approved by the engineer. Place temporary paint centerline or finish pavement markings for traffic configurations in place for greater than 72 hours.

Schedule of Items

Attached, dated January 9, 2020, are the revised Schedule of Items Pages 1 – 7.
