## STANDARD SPECIFICATIONS FOR HIGHWAY AND STRUCTURE CONSTRUCTION

2024 Edition

*Effective with November 2023 letting*

*The annotations, shown in boxed text, in this 2024 edition of the standard specifications identify substantive changes made since the 2023 edition. A brief explanation of each change is shown both in the table of contents and again adjacent to each revised passage. These annotations are not part of the contract.*

## Foreword

The department issues standard specifications annually. The "general" special provision of each proposal references the edition that applies to that proposal. ASP 6 "Modifications to the Standard Specifications" contains revisions made between the publication of successive annual editions and is bound into each proposal.
